

Future Merton Team

Merton Civic Centre SM4 5DX

Dear Team

Re LOCAL PLAN

I should like to make the following comments.

Climate Change section. given that Merton Council has declared a climate EMERGENCY, this section should receive urgent attention.

CC8.11

1.1.4, 1.1.5 and 1.1.19 I agree that measures to reduce carbon emissions apply equally to ALL development; large and small, residential and non-residential and existing buildings as well as new building.

CC8.14

1.1.7 and 1.1.8 I agree that demolition of single dwelling and replacement by single dwelling should be discouraged as it is contrary to the principles of sustainable development and circular economy.

CC8.15

1.1.8 I agree that all developments should include water-saving measures such as rainwater harvesting and greywater recycling.

WIMBLEDON section

There is a lack of plan to restrict the height of new buildings. I am opposed to tower blocks and should like to see a maximum of 10 stories.

Yours sincerely
