

Boyd .J

Dear Merton Council

I understand that the consultation period was extended so I am sending my comments which I hope will be taken into consideration.

There is much that is good in your plan but I would like endorse the excellent and very comprehensive report by the Wimbledon Society "Vision 2040"

I feel strongly about the importance of pedestrianisation and improved facilities for walking and cycling. This fits in with the recent guidelines from NICE who advocate it on health grounds.

I also hope that the Wimbledon Society's proposal for less office building and lower building heights will be incorporated.

Yours sincerely
