1	Please see our earlier comments, submitted 6 January 2019	1/27/2019 6:35 PM
2	We need to attract small businesses near the transport links.	1/24/2019 3:24 PM
3	there are huge business opportunities to be had outside of the central London boroughs but they need to be reinforced with strong connections and infrastructure but mostly cohesion of having a critical mass of SMEs.	1/7/2019 2:54 PM
4	EC 7.2.c is a good start in recognising that showers and cycle parking should be factored into new plans. We would ask that this is strengthened to include a minimum requirement for new developments to provide showers and cycle parking for 20% of their workforce. We would like to see EC 7.2.e.iii re-worded to encourage development that affects traffic movement in a positive way towards achieving modal shift to more sustainable and active transport.	1/6/2019 10:12 PM

11	As regards planning, I do hope the Planning Department looks favourably and speedily at proposals to redevelop the Coop site. The Coop is an important shopping outlet for local residents. Similarly the adjacent building - 290/298 Kingston Road - which is due to be changed from office to residential.	12/24/2018 11:29 AM
