**Subject:** Local Plan - Wimbledon

Dear planner

I hope I am in time to submit my views on the local plan for Wimbledon.

The thing that comes across loud and clear is that the plan has been drawn up with no regard for local people. This is massive redevelopment that will tear the heart out of our community - and for what...so that people from far and wide have a better experience?!

Like Crossrail 2, the plans ignore the fact that Wimbledon is a thriving commuter town and that people have chosen to live here and built their lives here because it's great as it is.

Wimbledon is not an area screaming for development. You talk about stitching the town together and building above and across the station as if this is something that needs doing. It doesn't.

Stop, think again before tearing our community apart for the sake of profit. This is not progress it is piracy under the guise of development.

Thanks  
S [REDACTED] Clark
