

Deegan. K

Dear Sirs

Before you make any changes to Merton Adult Centre the former Joseph Hood school I want to be sure as a local resident that the design of the building does not change.

If you are to convert to flats that you keep the façade as it.

I am also concerned how this will affect the primary school. You say you are turning into residential. What are the parking facilities. Locally in Haynt Walk we are overrun already by the increased parking as overspill.

How residential will it be. Is this private residence High end or social housing. Will the flats overlook the young children in the playground

I oppose this at this stage until we have been given a chance to look at plans in full.

I notification received this on the 29th December. So over the xmas period you have given us little time to oppose wanting responses by the 6th Jan. This not sufficient time You should have provided a proper visual consultation with local residents and given them more time to consider the options

Regards
