Subject: Future Wimbledon Masterplan

Hello

I would like to express my views on the Future Wimbledon Masterplan.

I think the Final Masterplan only really deals with demolishing and redeveloping the Town Centre into tall office blocks, it makes no mention of addressing transport issues, sustainability, better use of energy, ... and makes no guarantees of greening.

This plan seems to be totally focussed on maximising Council Tax returns from business rather than delivering a high quality town centre development for Wimbledon which will work for both residents and business.

Therefore, I oppose it as it is designed at the moment.

Best regards

M [REDACTED] Dines
