Subject: Concert Hall

Dear Councillors

It was a time of much joy to listen to some of the concerts at the Wimbledon music festival. I cannot believe how lucky we were to have such outstanding players in Merton.

Music not only brings joy in this time of uncertainty but also calms the mind in times of stress that hits us all. I do hope that Merton will be enriched with the proposed concert hall. It will require councillors of vision and love for the community to push it through.

Thank you so much.
