Published February 2019
1. Context and background

Local authorities (LAs) and early education and childcare providers must have regard to the SEND 0-25 Code of Practice (2015) and be able to demonstrate how they implement a graduated approach to support all children with SEND to fulfil their potential.

Recently, Government introduced new measures to support children with SEND in Early Years provision, which includes the Early Years Pupil Premium (EYPP), Disability Access Fund (DAF) and the Special Educational Needs and Disabilities Inclusion Fund (SENDIF). (Please see the Merton Funded Early Education Guidance for more information about EYPP and DAF).

All LAs are required to establish a SEND Inclusion Fund for children aged 3 and 4 who are in receipt funded early education. In Merton it has been agreed that this fund will also be made available to 2-year-old children taking up a funded place. The purpose of the fund is to support LAs to work with providers to address the special educational needs and disabilities of individual children. The fund also supports the LA in its commissioning responsibilities and its sufficiency duties to strategically commission SEND services under the Children and Families Act 2014 and Childcare Act 2006.

In addition, London Borough of Merton recognises that there may be other circumstances in which a setting may require advice/support to meet the needs of children with SEND. Therefore, we also currently provide a discretionary SEND Advisory Service when settings are in the early stages of Assess, Plan, Do, Review for either early education funded or non-funded children.

2. Working in partnership with parents

Parents must be in agreement with a SENDIF application in relation to their child and will have contributed their opinions and views as part of the application process. It is crucially important that parents are fully involved, engaged and agree with the work that is carried out in the setting and that the setting works in partnership with the parents/carers so that the best outcomes for the child can be achieved.

The Early Years Inclusion Service works with settings to improve practice and provide advice, information and guidance to the setting. The Inclusion Service’s work therefore is not with parents/carers directly, but with the setting. Please see our information leaflet for parents that explains how the service runs and how we work in partnership.
3. SEND support and funding processes

In Merton we have two separate processes for supporting Early Years (EY) settings in their SEND work with children.

**Process 1 – EY SEND Advisory Support** This is for settings when a child:
- is not accessing funded early education, or
- has low level SEND (level 1a) and is accessing funded early education, or
- is accessing funded early education and evidence is being gathered to make an application for SEN DIF

**Process 2 – SEND Inclusion Fund** This is for settings when a child:
- is accessing funded early education and meets the criteria for the SENDIF at medium level (1b) or higher level (1c) of need

4. Eligible providers

*Settings must be located in the London Borough of Merton for Process 1 and must be on Merton’s Directory of Providers of funded early education for Process 2.

*If your setting is outside London Borough of Merton and you require specific advice about processes and services in Merton with regard to SEND please email providers@merton.gov.uk

5. Application processes

The majority of children with SEND do not require specialist resources or enhanced staffing to be successfully included at a setting. Most settings can, and do, meet the needs of children with SEND very well from within their existing resources and through their own best practice.

It is important to note that a delay in learning and development in the early years does not always indicate that a child has a Special Educational Need that requires special educational provision. For example, difficulties related solely to learning English as an additional language are not considered a Special Educational Need.

It is expected that providers applying for support from the Early Intervention and Inclusion Team (SEND Advisory Support) or through the SEND Inclusion Fund (SENDIF) will provide information about how they have used the resources and staffing routinely available to them within the setting to maximise the support for individual children prior to submitting an application.

Parents/carers must be consulted and involved in the decision to apply for SEND Advice or the SENDIF and be in agreement with the application. All application forms must be signed by the parent/carer and the setting’s SENCo.

Process 1 - SEND Advisory Support Application

Support services provided

Applications may be submitted by Merton Early Years settings to the LA to request the following:

- Support and advice to implement SEND interventions, such as best practice in terms of use of equipment, resources, environment, small group work
- Advice and recommendations for individualised strategies, such as visual and sensory support, writing an SEN Support Plan and completion of a full cycle of support, role-modelling specific strategies/practice, support to make professional referrals, support to compete a SENDIF application (childminders or 1st application for a PVI only)

Providers will be expected to plan and monitor the provision they are making on a termly basis and use this to contribute to reviews/Officer visits. This will inform how the support has enabled the child to meet their education and learning outcomes. It is good practice for a child with an SEN support plan to have their progress and attainment reviewed in line with the outcomes within the SEN plan, and once a term as a minimum.
During the initial visit, a Merton Council Inclusion Officer, the child’s Key Person and SENCo will discuss progress and review any existing assessments, records, EYFS age / stage of development and strategies that have already been implemented.

The Officer will build a picture of the child’s strengths and areas of concern and check to see if there is any other support in place for the child and /or family. An observation of the child, practitioner interactions and access to resources /environment will also take place. The visit lasts about 2 hours.
**Frequency of visits**
- Low level of need - one further visit
- Medium level of need - a minimum of 1 and a maximum of 3 further visits depending on needs of child and setting over 2 terms
- Higher level of need - a minimum of 2 and a maximum of 5 further visits over a full year

Please note that if a child moves to another setting, a new application must be submitted by the new setting if support is still required. Support cannot be transferred between settings without a new application.
Process 2 – SENDIF Application

SENDIF criteria and evidence required
The child must attend an eligible setting in Merton (see page 4 for provider eligibility), taking up a funded early education place at the setting and meet the criteria.

IMPORTANT NOTE: If SENDIF funding is agreed, funding will only be released if the child is named on the setting’s early education funding claim

Applications may be submitted to the LA in accordance with the published criteria (see page 15).

Settings will need to include evidence of the child’s needs, actions already taken and planning what the funding would be used for to support their application. This should include (where applicable and relevant)

- Information from parents/carers
- Information from previous settings / Portage
- Current observations /activity records
- Progress reports
- Health care plan, risk assessments or similar plans
- Evidence of individualised assessment, planning, provision, monitoring and evaluation cycles
- Evidence from professionals involved

Use of the SENDIF
The application form provides space to outline the proposed use of the SENDIF and the SENDIF criteria (see page 15) provides suggestions as to what kinds of activities and resources the funds can be spent on.

Examples of uses of the funding are:

- Staff training specific to meet a child’s needs, such as understanding autism, Makaton etc. This may be on site (charged for) training from a local SEND professional or to cover attendance at external training and cover staff costs
- As a contribution to enhance staff ratios for children with a higher level of need
- Improvements to the environment such as resources and equipment, taking into account whether the setting receives the Disability Access Fund (DAF)
- Embedding new strategies/practices

Application pathway for SENDIF
Applications may be submitted to the LA in accordance with the published pathway on the next two pages.
The Audit visit is to ensure that the funding is being used in accordance with the purposes set out in the application and that the child's education and learning outcomes are being met and progress is being made.
At the Audit visit, the Inclusion Officer will discuss concerns, what’s going well and progress made with the Key Person and SENCo. They will review current strategies and intervention, evidence of SENDIF spending and its impact on the child’s learning outcomes, update key information such as professional/agencies involved, new reports, and provide agreed actions/recommendations to further improve practice / SEN support. The Officer will build a picture of the child’s strengths highlight areas of concern and check if there is any other support in place for the child and or family. An observation of the child, practitioner interactions and access to resources / the environment will take place. The visit will last about 2 hours.

**Step 9**
- An Appendix 3 - SENDIF Child Audit report is provided to the setting within 10 working days, summarising the findings from the Audit, recommendations and actions for the setting, including the frequency of future visits.

**Step 10**
- There will be further Audit visits across the duration of the agreed SENDIF period. Depending on the level of need of the child and the setting, additional advisory visits will take place.

**Step 11**
- Audit and advisory visits take place in accordance with the agreed frequency

**Step 12**
- If the needs of the child are being met, SENDIF comes to an end. If the needs of child and setting are such that a further cycle of support is required, an Appendix 4 - SENDIF Extension Form is submitted

*Frequency of Audits and Advisory visits

- Medium level of need (1b) 1 further audit visit and a maximum of 2 further advisory visits depending on needs of child and setting over 2 funding periods
- Higher level of need 2 further audit visits and a maximum of 3 advisory visits over a full year

Please note that if a child moves to another setting, a new application must be submitted by the new setting if support is still required. Please note funding does NOT follow the child if they change placement during the funding period

**6. SEND Inclusion Fund (SENDIF)**

**Levels of funding**
The current (April 2019) funding is available at two levels (see SENDIF Criteria from page 15 further details):

- 1b / Medium Level - £2.80 per hour for 3 and 4 year olds and £2.55 for 2 year olds
• 1c / High Level - £10.50 per hour for 3 and 4 year olds and £7.80 for 2 year olds (includes children undergoing an EHC Needs Assessment)

Claims and Payment Process
SENDIF will be paid to providers in line with the timetable published in Section 9.1 of the Merton Funded Early Education Guidance as part of Headcount claims (all providers) or Late Starter claims.

To claim the funding, please follow the general guidance in Section 9.3 of the Funded Early Education Guidance. Ensure you confirm the child is SEN support on the early education funding claim form.

The SENDIF payment will be calculated using the date of the application and the child-led claims data. Payment of SENDIF is subject to the child being on the main early education funding claim.

Because the SENDIF is processed using the existing claims arrangements, the number of funded early education hours claimed for a child will correspond with the number of hours SENDIF applies.

We are aware that, on occasion, a very few children who are identified as SEN Support and in receipt of additional inclusion funding, or those with an EHCP, may, with the agreement of the setting, the parent and an Inclusion Officer, claim for the full 15 hours even if the child does not take up the full entitlement. This only happens where this has been agreed by all parties and is in the best interest of the child to support a planned transition.

However, it is expected that during the first funding period of starting at a setting, a plan is followed to enable the child to take up their full entitlement.

If after the first term the child is unable to attend for the full entitlement each week, the provider can only claim for the hours that the child is attending. In exceptional circumstances and in agreement with all parties a further period of transitioning will be agreed, and full funding allocated during this time in order to meet child's needs.

Moving between funding levels
• The movement of a child from 1b/medium level funding to 1c/higher level funding must first be agreed by the SENDIF Panel via the application process. Once agreed, the funding will automatically be upgraded from the date of submission of the application.

• If a child is receiving 1b/medium level funding and an agreement to assess them for an EHCP is made by the LA’s Special Educational Needs and Disabilities Integrated Service (SENDIS) Panel (this includes children resident in another LA, for whom written evidence will be required), the funding will be automatically move to 1c/higher level funding effective from the decision date for 20 calendar weeks or the effective date of the finalised EHCP, whichever is sooner.
Child changing setting at end of the funding period
The child’s new setting will need to complete an Appendix 5 - SENDIF Change of Setting form prior to making the first early education funding claim for that child at the new setting. This confirms that that transition arrangements have been made between the old setting and the new setting.

Child changing setting during a funding period – before the funding claim
There will be no funding allocated to the setting if the child is not on the funding claim, even if the SENDIF has been agreed. SENDIF is subject to the child being on the early education funding claim.

Child changing setting during a funding period – after the funding claim
There will be no funding allocated to the new setting after the funding claim period. The setting that submits the early education funding claim will receive the SENDIF.

Application cycle timescales
The cycle of SENDIF is as follows:

- For successful applications received before half term, the cycle will start from the date that the application was received. This will count as the first SENDIF period.
- For successful applications that are received after half term, the cycle will start in the following funding period which will count as the first SENDIF period. The funding will start however, from the date the application was received.

The tables below show how the timescales are applied in terms of when the SENDIF cycle starts and ends.

<table>
<thead>

</tr>
<tr>
<td></td>
</tr>
</tbody>
</table>
THE SENDIF Panel does not meet once the final submission dates for the claims have passed. Once the new funding period starts the application will be considered and funding applied from the date of the new funding period.

**Extension of funding**
Funding is awarded for either 2 funding periods (1b) or 3 funding periods (1c). See table above for the application cycle. If a setting still has concerns and has evidence to show that the funding should be extended after these cycles, they will need to submit an **Appendix 4 - SENDIF Extension Form** to be considered by the Panel.

The SENDIF is reviewed every year to inform the following financial year’s SENDIF processes and the total value of the fund. Where SENDIF funding is agreed for a timescale that cuts across two financial years, there may be changes to the unit cost of the funding released for funding periods falling into the new financial year.

**Appeals Process**
If evidence is submitted to Panel that does not show how the child meets the published criteria for SENDIF, an explanation will be given to the provider highlighting which criteria was not met and this decision will be final. Criteria is either met, or not met and therefore the decision cannot be appealed unless there is further/new/additional evidence that shows the criteria is met.

If the provider believes the decision making to be inconsistent with the criteria, a letter/email to the Head of the Early Years’ Service should be sent within 15 working days of the decision.

On receipt of this, the Head of Service and a named Advisor or Inspector from the Education Department’s School Improvement Team will review the documentation...
and the evidence submitted against the published criteria. The outcome of this will be that the appeal is either upheld or not.

If the provider is not satisfied with this response they can follow the council’s formal complaints procedure.

</table>
| 1b/Medium Level | Available for both universal and extended entitlement for an initial period of a maximum of 2 funding periods. | Child/ren identified with additional needs:  
- At least 1 age band below in 3 out of the 8 aspects of the prime areas of learning (EYFS - at least three ‘jumps’ delayed), AND;  
- Requires targeted SEN support with an SEN Support Plan in place, AND;  
- Professional involvement from at least one external child development professional from education or health that evidences developmental delay / additional needs AND  
- Is taking up a funded early education place and is recorded on the headcount | To make a decision to go to SENDIF Panel  
- Evidence of parental consent and views, AND;  
- Evidence of Assess, Plan, Do, Review (SEN Support) AND;  
- Evidence of the EYFS levels AND  
- Evidence of Professional report/assessment from a minimum of 1 specialist (e.g. Educational Psychologist, Paediatrician, SALT, OT, Physiotherapist or Portage Worker) that shows developmental delay / additional needs | Social interaction or Language Groups delivered in small groups (4 to 6 children maximum)  
Integral use of visual timetables incorporating objects of reference, photos, symbols, use of picture exchange systems etc depending on child’s needs and used consistently by all staff.  
Differentiation of activities and resources to support specific targets included in SEN Support Plan or recommended by another professional  
Short direct teaching sessions clearly planned for the individual child  
Regular supervision and individualised and consistent behaviour management with behaviour plan for children with challenging behaviour  
Risk assessments for children with risky behaviours and enhanced staffing support for short periods of the day  
Care Plans for children who require specific care outlined by a medical professional, delivered by staff with training  
Reasonable adjustment to the environment or resources  
Specialist or additional equipment to support children with physical disabilities.  
Changes to staff deployment to enable small group work or individualised support for specific and planned activities |

| 1c/Higher level | Available for both universal and extended entitlement for an initial period of a maximum of 3 funding periods. | Child with complex and significant needs:  
• 2 year olds: at least 12 months below expected age band in 3 out of the 8 aspects of the prime areas of learning (EYFS, at least 3 jumps delayed)  
• 3 year olds: at least 18 months below expected age band in 3 out of the 8 aspects of the prime areas of learning (EYFS at least 4-5 jumps delayed)  
• 4 year olds: at least 24 months below expected age band in 3 out of the 8 aspects of the prime areas of learning (EYFS at least 6 jumps delayed). AND  
• Requires targeted SEN support with an SEN Support Plan in place, AND; | To make a decision to go to funding panel *  
• Evidence of parental consent and views, AND;  
• Evidence of Assess, Plan, Do, Review (SEN Support) AND  
• Evidence of the EYFS levels AND  
• Evidence of Professional reports/assessments from a minimum of 2 specialists (e.g. Educational Psychologist, Paediatrician, SALT, OT, Physiotherapist, Portage worker that evidences developmental delay / additional needs) OR  
• Key Worker Summary of the Child’s SEN (no appendices needed) if the child requires the higher level of funding, many of the strategies and interventions identified above (1b/medium level) will be in place. In addition you will need to consider: | Support at circle time to maintain listening and attention  
Specific environmental adaptations for sensory needs  
Additional supervision when accessing particular equipment or resources, to ensure health and safety of all children and adults  
Support to manage basic hygiene, feeding and personal needs above and beyond what would normally be expected for a child given their age (note: nappy changing should be an integral part of caring for children under 4 in the EYFS)  
Additional support for the child by increasing staffing ratios for intensive support and interventions to meet the targets set for the child (not 1:1)  
Intensive support/teaching for the child, taking place on an individualised basis and based on recommendations being made by a number of professionals involved with the child  
Intensive support for the child to meet Personal, Social and Emotional development (e.g. highly challenging behaviour, social interaction, self-esteem and positive relationships.)  
Intensive support to manage basic hygiene and personal needs for children with complex special needs. |
