**Subject:** Re New Concert Hall for Merton

Dear Futurej Merton and Stephen Alambritis

I am writing as a believer that Wimbledon could become a world class centre of excellence in the arts field - given the tools to house the myriad of artistes and societies desperate for somewhere to present their talents.

Wimbledon has good transport links and more in the offing plus restaurants, is home of a huge, natural wide open space, and a superb concert hall, such as the plans show, would surely enhance existing businesses and encourage new ones to the area.

Please Include the concert hall in your plans for SW19.

Sincerely  
[REDACTED] Gilmore
