Subject: Music Hall

This is to express opposition to the proposed site of the Concert Hall (while supporting the idea of a Concert Hall in itself).

What is the use of all the facilities being made available in Wimbledon if we cannot park when we get there? Please do not do away with any more car parking facilities.

The changes to the town centre which will result from Crossrail will throw up some other opportunities for a site for the Concert Centre. These opportunities should be sought out first - and, in any case, does the Concert Centre have to be in the centre of town?
