Subject: Master Plan

My comments on the plan are:

1. Please remember this is a residential area and needs to serve local people, not just commercial interests.
2. I support your efforts to keep the Wimbledon town centre alive and viable by encouraging SOME office and commercial development, but don't over do it.
3. Don't spoil the area with in appropriate high buildings. Obviously it makes sense to develop upwards when we are so pressed for space, but we must have plenty of sky and sun and gaps and not wind tunnels.
4. If there is too much 'commercial' then the residents will feel uncomfortable, particularly coming home at night. The centres of places like Croydon are dire!
5. More social (not just 'affordable' which poor people can't afford) housing.
