Please tell us if you have any other comments.

The mix of low/high density needs to vary by location rather than a one-size policy.

Don't know.

large supermarket / superstore sites; providing shops on the ground floor with new homes above.

to communal living: designing for flat shares or supported living.

Some of these matters are outside our remit. However, the location, size and design of new housing development has the

council's own consultation showed the community does not want ugly high rise buildings destroying the environment. Building

Road, Merton High Street and wherever else the council thinks it is possible is a huge mistake. It will create microclimates of

1. Estate regeneration needs to be done in the right way that doesn't mean 'social cleansing'.
2. No large basements that threaten surrounding properties.
3. Review conservation area restrictions.
4. Businesses for jobs.
5. Add all small sites in residential areas to be used for new homes: this would provide new homes but would reduce the amount of space for small businesses.
6. Encouraging neighbourhood plans which are already tall buildings such as in the centres of Colliers Wood, Morden, South Wimbledon and Wimbledon.
7. Tall buildings are not the answer - much greater effort must be given to promoting mid-rise development that better reflects the neighbourhoods to provide new homes and jobs.
8. Don't develop developments of less than two/three storeys.
9. Remove amenity space requirements of 50sqM for new housing. 2 miles away Wandsworth only require 15sqM for a 3 bed.
10. The proportion of Council owned properties for rent is low compared to private ownership. Merton Council must be prepared to work, cases need to be considered.
11. There is not an infinite amount of land on the Council.
12. Recycling existing housing land; promote further.
13. Allow new homes to be built extending existing housing terraces.
14. Allow all small sites in residential areas to be used for new homes: this would provide new homes but would reduce the amount of space for small businesses.

### What do you think are the priorities for new infrastructure? Please identify the three most important items from the list below.

- School places and other educational provision
- Community facilities and spaces including sports fields and playgrounds
- Digital infrastructure and telecommunications
- Cemeteries and crematoria
- Public transport
- Housing
- Health and care
- Green spaces
- Other

### Are there any other challenges or opportunities for your local area? Please use the box below to tell us more (optional).
