Stephen Hammond MP; [REDACTED]  
**Subject:** please do not kill Wimbledon Town Centre

To whom it may concern

**1. We do not want overdevelopment of Wimbledon Town Centre**

I have seen what overdevelopment has done to Croydon Town centre, which is hideous and devoid of character, with ill-planned tall buildings. We do NOT, I repeat, we do NOT want this for Wimbledon Town Centre. We must preserve what remains of its lovely Victorian townscape.

**2. There is no demand for more office blocks**

More white-collar workers are working remotely or from home, using the internet rather than travelling to work in an office block. A case in point: an office block at the top of Alwyne Road has remained empty for over 2 years.

**3, Preserve our air quality**

It is common knowledge that some areas in Merton have abysmal air quality e.g. the areas near Merton Abbey School. Residents are developing illnesses directly attributable to poor air quality. We do not need this to worsen. Overdeveloping Wimbledon Town Centre can only hurt the health of our children and older people.

Please don't do it!
