Subject: A Concert Hall in Wimbledon

I hope the council will support the creation of the proposed new Concert Hall on the Hartfield Road car park in the town centre. A world class venue, as this will be, will be transformative in the cultural life of our town and, indeed, in the musical life of London.

Wimbledon is famous globally thanks to the Championships and has a vibrant cultural life as well. This initiative will add yet more to the excitement of living here, provide a prestigious purpose built venue for world class performing arts as well as a centre which will encourage the development of talented locally based artists.

There is no downside to this project. I strongly recommend that the Council gives their fullest support to what would be a cornerstone for the Wimbledon of the future.
