

Roy N

I am a Merton resident. I strongly oppose your plan to re-designate former Adult Education Centre for residential use.

I had opposed stopping of Adult Education Centre, but this council has got so much power that they did not care about our opinion. Like demolition of our heritage site The Merton Hall, council wants only to earn money by selling lands. They don't care about heritage.

It is all about money, wherever you go. Introducing new road areas with paid parking which were free before to selling the Adult Education Centre to house builders. They do not think about their own grand children. Council needs to think what we are leaving for our next generations.
