Adult Education Site (RP9) - request to be informed

Dear Merton Council,

I'm writing in respect of your current plans, specifically related to the building next to Joseph Hood Primary school, currently temporarily Harris Wimbledon, formally the Merton Adult Education Centre.

and a resident of Merton, I look forward to hearing more about your ideas for developing the Adult Education Site (RP9) and how it will benefit the school. My strong preference would be for it continue as an education centre, in partnership with the school. I would in no way wish for the site to be converted to housing.

I look forward to continuing to be informed and wish you all the the best with your exciting plans for the area.

Best regards,
