Dear Sir/Madam,

I was unable to attend the meeting arranged by FoWTC in November, but having heard tales about how Wimbledon was going to be turned into a "mini Croydon", so I made sure my husband did attend. After hearing his summary I'm not at all happy with your plans as I believe they will result in a heavy increase in traffic and people. This does not sound at all feasible.

Wimbledon already suffers with bad traffic down the Broadway, and also a precipitous drop-off in footfall around the theatre. It doesn't seem sensible to me to have buildings that are so much taller than the existing ones - 8 to 15 storeys? This is just not sensible in any sense of the word.

Please go back to the drawing board and think again about what problems you're trying to answer: I don't believe your proposed approach will work and will seriously damage Wimbledon's charm and attraction.

Regards,
V [REDACTED] Simonian
