**Subject:** Wimbledon Masterplan

Dear Sirs,

As a resident of [REDACTED] I would like to have noted my opposition to certain aspects of the Wimbledon Masterplan. I welcome the greening of Wimbledon and the encouragement of more independent shops and a centre for music and performing arts.

However I object to the redefining of Wimbledon as a centre of commerce instead of a residential district which is why we chose to live and raise our family here. Buildings over seven stories are not consistent with a primarily residential area and are certainly not welcome due to their proximity to the majority of houses which are two stories high. The additional thousands of people and traffic are not manageable and in keeping with the feel of Wimbledon.

Wimbledon is a green area which is more and more crucial with increasing population and traffic. Please help us protect it.

Best wishes,

A [REDACTED] Topen
