

Weir. D

Dear Merton

I bought my house in Rowan Park, Longthornton ward over 5 years ago.

We have been promised landscaped gardens, community rooms and a new GP's surgery, none of which has been achieved, despite there being section 106s etc. I have zero confidence in you as a council to make sure planning objectives are achieved.

What caveats are you putting in your planning processes to make sure this does not happen again? Here's one suggestion, make sure builders like Crest Nicholson build the facilities first before being allowed to to sell any residential dwellings.

I also hope Crest Nicholson will not be included in any future plans in Merton (although I understand other house builders are as bad).

Kind regards
