**Subject:** Master plan

I strongly object to your master plan of Wimbledon. I have lived in this town since 1970 and in that time seen it become a thriving community of residents with a central area.

However in all the time I have been here there have been office blocks sit empty for many, many years. What on earth makes you think if you Build high rise buildings in the town centre, you will attract any more businesses than you do now. Therefore you do not need to build 18 storey blocks of empty offices. Wimbledon does not need to become like Croydon or Kingston or even Sutton. Four to six storeys should be sufficient in this residential suburb.

Please keep us better informed by mailing us (it doesn't have to be glossy) of any future plans you may have.

Thank you

Concerned resident.
