Subject: Wimbledon plan

Some thoughts:

More Richmond/Kingston/Central London than Croydon/Sutton please. Wimbledon deserves interesting/innovative design and character.

Don't let Stephen Alambritis have anything to do with it. I don't trust him and I don't believe he has the town's best interests at heart.

It would be good if due consideration could be given to South Wimbledon as an important part of the town.

Centre Court doesn't currently work as a shopping centre.

Pleasant places to sit are currently lacking.

A water feature/water features would be nice. As would some sculptures.

Regards,

N [redacted]
