Woodland Walk
Physical or Human?
Woodland
Points for discussion

Woodland
• What do woodland trees and plants need to grow
• Who planted the trees?

Woodland Walk
• Has this path been created naturally?
• What is the surface made of and where did it come from?

Pyl Brook
• How have banks of the stream have been altered by humans?
• Where do streams come from and where do they go?

Mown Paths
• These are easiest to spot in the summer when the grass is left to grow long - why is this good for wildlife
• What is the surface made of and where did it come from?

The Mound
• What is the Mound made from?
• What kind of information can you find out about the history of the mound?
Points for discussion

**Cycle Path**
- Who planned and made the cycle track?
- What is the path made from?
- What natural features are around path and how have they been impacted by its construction

**Old tennis court**
- This used to be a tennis court used by humans but who is benefiting from the space now?
- What impact are plants and trees having on the court

**Natural Path**
- Do you think this path has been made by people or animals?
- Is it made of man-made or natural materials?

**The Pitch and Putt**
- Who benefits from the Pitch and Putt, people or animals?
- What kind of management takes place to keep the area in good condition?

**The Bandstand**
- Are there any physical parts of the bandstand?
- What could it be used for?
