

From: Lund. C & Campion. L

Dear Sirs,

Following a letter through our door informing us, for the first time, of a proposed development at Raynes Park service station on Bushey Road we would hereby like to raise an objection to any development that would impact on the rear of our property by overshadowing, blocking any light, impeding the view of trees, construction disruption etc.

At present the vehicle repair sheds pose little disturbance, are hidden by a back wall and as single storey allow for a great amount of light into the rear of our property which we would not want to see jeopardised.

We would be grateful if you would acknowledge that this email on the matter has been received within the consultation window.

Kind regards
