Dear Sir/Madam

Re-planning proposal for housing development on 26 Bushey Road

I write to object the planning proposal for housing development on 26 Bushey Road for the following reasons:

- the increase in overcrowding will lead to potential parking, traffic and safety impacts on neighbouring streets and local amenity.
- the problems with the main entrance into the site from a very busy two lane road
- it will obscure our backyards and reduce our privacy
- the increase in traffic congestion will cause more noise and pollution
- the area is prone to flooding
- the former petrol station may be a potential health risk to the residents when it is removed.

I'm quite happy with the status quo as the car repair businesses do not cause a lot of inconvenience; there is still open space and sunlight. The garage owners are fairly nice and polite and helpful. Furthermore, by leaving things as there are, it continues to provide jobs for them. Sundays are very quiet in our backyards...
