Merton's draft Sites and Policies DPD, Proposals Map and on a draft supplementary planning document for Rainbow Industrial Estate, Raynes Park

Dear sirs,

We have reviewed the draft Sites and Policies DPD ,proposals map for additional sites and comment as follows:

We have no comments on sites 37,64,69,72,73, 74, 75, 76, 77. We anticipate that existing and planned healthcare facilities will meet demand from these developments.

Site 65 Kenley Road Car Park

We consider this to form part of the Morden Town Centre area and comments made in our last submission remain. There is a need to develop modern healthcare facilities in Morden town centre part funded by developers to support the new population. The site could be at a redevelopment Morden road or on an accessible new development site.

Site 71 land at corner of Weir Road and Dunsford Road

This site is very near Vineyard Hill surgery which needs replacing. It will place additional burden on existing facilities which will require investment to meet the additional demand.

Site 81 Moat Housing Estate

The PCT requires need more information on the expected capacity of this site. i.e. net additional population. It is very close Croydon boundary. The nearest surgery is Leander Rd (CPCT). Nearest SMPCT premises are Wideway and Tamworth House which are not close and this may require investment to support increased capacity.
