

Fleet Vision International Awards 2023: Innovator of the Year

Fleet Vision International is a digital magazine about vehicle fleet operations and related services. It organises an annual awards ceremony with categories such as Air Quality and Fleet Management.

At the finale of a glittering awards ceremony at City of London's Banking Hall on 27 April 2023, with delegates not only from across the UK but also from foreign cities with similar pollution reduction challenges such as New York and Seattle, the Cleaner Construction for London team were delighted to be awarded the Innovator of the Year trophy.
