Scope

This policy applies to all subcontracting activity supported with funds supplied by the Greater London Authority (GLA) and/or the Education and Skills Funding Agency (ESFA), or any successor organisations. Where a partnership or collaboration is formed, these arrangements should not be confused with subcontracting, and they do not fall within the scope of this policy.

Context

This policy is in place to outline our reasons for subcontracting, the measures in place to monitor the quality of our subcontractors, and our retention of funds and charges. The content of this policy has been developed in line with the GLA and the ESFA Funding and Performance Management rules.

A copy of the GLA funding rules for 2022-23 can be found [here](#).

A copy of the ESFA funding rules for 2022-23 can be found [here](#).

Our commitment

When working through a subcontractor, we commit to optimise the impact and effectiveness of service delivery to our learners by:

- aligning our processes with the GLA and ESFA requirements,
- undertaking fair and transparent procurement activities which demonstrate value for money, and conducting robust Due Diligence procedures to ensure we commission to the best providers in the field,
- maintaining and publishing a Funding Retention and Charges Policy that relates the Management Fee (i.e. the retained funding) to the costs of the services provided. A published copy can be found [here](#).
- clearly documenting and agreeing with all parties, the Funding Retained and Charges applied to each subcontract,
- submitting any disputes that cannot be resolved between subcontractors to independent outside arbitration or mediation and to abide by its findings.

Rationale for subcontracting

Following an extensive consultation and review process in 2015, the London Borough of Merton took the decision that its Adult Learning Service contract out its provision to local organisations. In arriving at this decision the Council considered that “the commissioning model protects adult education in Merton” and that “this was not a cut to the service beyond any future reduction made by the ESFA” although it did recognise that “this model does not fully protect services from the impact of those cuts. As commissioners the council will be in a position to steer provision and the spread of venues so that the service fully addresses the challenge of “bridging the gap” between east and west. This ability will be maintained.” (*Cabinet Committee minutes, 16th February 2015*).

Therefore, prospective subcontractors are invited to tender for the delivery of provision and a core team (Merton Adult Learning) manage the contracts.

Subcontracting enables Merton Adult Learning (MAL) to:

- engage with hard to reach learners via partnerships with appropriate community organisations.
- provide a wide range of expertise to meet the skills and learning needs of adults and employers in Merton.
- enable community based organisations to develop the capacity necessary to provide learning programmes to meet the needs of their clients.

Quality assurance

The quality of subcontracted provision is monitored and managed according to the guidance to be found in the MAL Provider Handbook, the GLA and ESFA Funding and Performance Management rules, and the Ofsted Inspection Framework. These documents will be supplied to all subcontractors at the start of the contract.

Subcontractors are required to give MAL sufficient evidence to allow us to assess the subcontracted provision and performance against the requirements of the documents listed above, and the contract.

Improving our subcontractors' quality of teaching and learning

MAL ensures subcontractors are included within its quality processes. Subcontractors are supported by the Adult Learning team to maintain the same high quality standards expected across all aspects of the provision.

MAL is committed to continuous improvement and this commitment covers all provision programmes. All subcontracted provision is included in our quality cycle which includes lesson observations, observations of information, advice and guidance, learner feedback, moderation of teaching, learning and assessment, quality assurance and contract performance monitoring meetings, and shared quality improvement plans. MAL supports subcontractors throughout this process to ensure quality provision is being delivered to the high standards expected.

Supporting our subcontractors

To ensure a high quality standard of provision is maintained, MAL works closely with and supports all providers that have been subcontracted for delivery.

All contract agreements outline the processes and procedures for our subcontracted provision, as well as the roles and responsibilities for both parties. MAL provides ongoing support to subcontractors during their contracts. Details of the support provided and the costs for this are listed in the table below.

Setting funding retained and charges

Our standard management fee will be 15% of all formula funded adult skills and 20% of all community learning funding drawn down against the provision to be delivered. This amount represents the costs that we incur in identifying, selecting, managing, and administering all subcontracted provision. It is based on the amount of quality assurance activity that would attach to the lowest possible risk subcontractor. See **Appendix 1** for retained costs table.

Further charges may be added to the standard fee to cover additional costs that we consider necessary. These costs are usually costs that are necessary to ensure the quality of teaching and learning based on our assessment of risk. Examples of additional costs that may result from a medium or high risk rating are:

- additional site visits
- additional lesson observations
- additional support for delivery staff
- more rigorous verification.

Occasionally, additional costs may result from additional administration or compliance or from the provision of bespoke services by MAL to the subcontractor (for example provision of resources, internal verification, awarding body fees, student support costs).

MAL will consider the clawback of funding paid to our providers if there is under-delivery or a specific reason to warrant the recovery of funds paid. This will be in line with contract arrangements and as appropriate to the funding paid and circumstances surrounding the reason for clawback.

Subcontractors are required to:

- ensure learners receive high quality, impactful learning and that high levels of achievement are sustained
- fulfil the requirements of their contract and key performance indicators
- always have suitably qualified and safely recruited staff available to provide the education and training that MAL funds
- provide access to staff and classes as part of monitoring visits
- attend monitoring and contract meetings
- ensure learners are informed of the subcontract relationship with MAL
- ensure a safe and inclusive learning environment for all learners
- make available on request all forms and other documents, including enrolment forms, associated with the eligibility to study and enrolment of learners
- make available on request all initial assessment documents and ILPs
- make available on request all registers and achievement records
- work with MAL on the production of a thorough self-assessment report (SAR)
- implement and action a quality improvement plan that links with the SAR
- provide complete and error-free ILR data according to the schedule (see below)
- have a contingency plan in place and co-operate with MAL to make sure there is a continuity of learning should a risk to delivery occur, or if the subcontract ends for any reason
- tell us if evidence of any irregular financial, quality assurance or delivery activity arises. Irregular activity could include, but is not limited to non-delivery of training when funds have been paid, sanctions imposed on the delivery subcontractor by an awarding organisation, an inadequate Ofsted grade, complaints or allegations by learners, people working for the delivery subcontractor or other relevant parties, and allegations of fraud

Assessing risk

MAL uses the following standard factors to assess the risk rating of each subcontractor:

- evidence of the quality of delivery
- performance against contract and key performance indicators
- type of provision
- contract duration with MAL and any mid-contract changes
- feedback from learners and/or partners
- qualifications, experience, and training of staff involved in the delivery
- quality of physical resources

Providers will be assessed as HIGH, MEDIUM or LOW. Where a provider has a score of LOW an additional management charge may be calculated.

In the event of the subcontractor being unable to complete their contract, MAL will endeavour to ensure minimum disruption to students whilst alternative arrangements are secured in line with the contingency plans that relate to the contract.

Payment terms

All subcontractor payments will be calculated as a percentage of the funding generated by actual activity recorded in MAL's Individualised Learner Record (ILR) data and paid within 30 days of receipt of a valid claim for payment. Claims will only be valid when contractors have fulfilled the terms of their contract and dependant on adequate provision of supporting evidence. MAL will generate a statement of funding earned by a subcontractor against which an invoice can be submitted.

To ensure payment can be made in the correct period, error-free data must be received no later than the last date for subcontractor to submit ILR data. Data that is submitted after this date, or submitted with error, is likely to miss the payment for that month. See schedule below.

MAL will determine that each cost claimed by a subcontractor is reasonable and proportionate to the delivery and contributes to high quality learning. We do this by:

- requesting course delivery plans from tender bid stage which agree a value per course / learner, and are evaluated as part of the award process
- having a KPI on value for money which is reviewed as part of the quality cycle and contract arrangements
- ongoing review and approval of course delivery plans throughout the contract period
- including pound plus requirements within tender bids and contract arrangements

Sharing information with subcontractors, partners and stakeholders

We commit to ensuring that all existing and potential subcontractors have sight of this policy and any other relevant documents as part of the tendering and contractual process.

In compliance with the GLA and the ESFA requirements we publish this Funding Retention and Charges Policy and the MAL actual subcontracting funding paid and retained on our [website](#).

This policy is reviewed each year, updated as required and published on the MAL website. All contracted providers will be sent a copy of the policy annually at the start of a new academic year.
