  - (a) designate parking places for electric vehicle charging at the locations listed in the Schedules to this notice;
  - (b) provide that the parking places would operate at all times, unless otherwise stated;
  - (c) specify that the parking places in controlled parking zones referred to in the Schedule to this notice would be available for fully electric and plug-in hybrid electric vehicles only, for up to 12 hours, provided that during controlled parking zone operational hours the applicable charge for the relevant controlled parking zone permit has been paid with respect to the vehicle and that any electric vehicle is connected via a charging lead to a lamp column upgraded to enable electric charging at all times while it is left in a parking place.
