

## Merton Climate Action Plan Stakeholder Workshop

**Wednesday 26<sup>th</sup> February 2020**  
**Morden Assembly Hall, 228 Tudor Drive, Morden, SM4 4PJ**

### Agenda

In July 2019, Merton Council declared a Climate Emergency, committing to work towards becoming a carbon neutral borough by 2050 and a carbon neutral Council by 2030.

Merton Council are now developing a Climate Action Plan to deliver these targets. This workshop will bring together stakeholders from the Council and their contractors, other public sector bodies, businesses, community and residents to:

- Update you on what has been achieved so far
- Give you some insights into our technical scoping of our climate emergency response
- Discuss with you how we can all take action to achieve net zero carbon Merton

In advance of the workshop, delegates are asked to read the briefing paper and think about:

- What actions you think Merton Council should be undertaking
- What actions you think wider society should be undertaking in Merton

15.15	Registration and tea/coffee
15.30	<p><b>Welcome: Cllr Stephen Alambritis, Leader of the Council, Merton Council</b></p> <p><b>Presentations:</b></p> <ul style="list-style-type: none"> <li>• Our work so far: Katie Halter, Merton Council</li> <li>• Update from our technical consultants: Katrina Young, Aether</li> </ul> <p><b>Workshop 1: A Vision for Net Zero Carbon Merton</b>  This first workshop session will help us all imagine what living in Merton in 2050 will be like, when we've achieved net zero carbon. How will we live and work? How will we travel? What will we be buying and what will we be throwing away?</p>
17.00	Tea break
17.15	<p><b>Workshop 2: Delivering Net Zero Carbon Merton</b>  We'll be looking at 6 different sectors and discussing possible actions to get each one to net zero carbon - even if it's going to be really difficult. The sectors are:</p> <ol style="list-style-type: none"> <li>1. Domestic buildings &amp; household energy use</li> <li>2. Non-domestic buildings &amp; business energy use</li> <li>3. Transport</li> <li>4. Waste and sustainable procurement</li> <li>5. Green spaces</li> <li>6. Governance, reporting and finance</li> </ol> <p><b>Workshop 3: Action Planning</b>  The final session will take a more detailed look at the high carbon impact actions. What needs to happen? What are the barriers to success and how can we overcome them? Who needs to be involved and how can we work together?</p> <p><b>Closing remarks</b></p>
18.30	Close
