

---

I strongly object to the proposals in the consultation on the future of Merton Park. This consultation was conducted in a totally underhand way with no announcement to the residents of this area or any time given to gather their opinions. The proposals would totally change the character of this residential area and increase traffic and demand on essential services. The proposals were presented in a very difficult format for anyone to access and I would have been totally unaware of them if it wasn't for our local whatsapp group bringing it to my attention.
