Q10 Would you like to be contacted by Future Merton team in future about this consultation and other future development planning documents consultations? **No**

Q11 If so, please provide your email address **Respondent skipped this question**

Page 3: Your comments on the draft LIP3.

Q12 Please select how often you use each modes of transport

Walk	At least once a day
Cycle	Never
Bus	More than once a week
Business vehicle	Never
Car club	Never
Taxi/private hire	Less than once a month
Tram	Less than once a month
Train (railway)	Less than once a month
Tube (underground)	Less than once a month
Car	Several times a month

Q13 Do you think we have captured the key transport challenges affecting the borough? **Agree**

Q14 Do you think the borough objectives LO1- LO7 meets the Mayoral outcome 1: London's streets will be healthy and more Londoners will travel actively? **Agree**

Q15 Do you think the borough objectives LO8- LO13 meets the Mayoral outcome 2: London's streets will be safe and secure? **Neither agree nor disagree**

Q16 Do you think the borough objectives LO14- LO18 meets the Mayoral outcome 3: London's streets will be used more efficiently and have less traffic? **Agree**

Q17 Do you think the borough objectives LO19- LO25 meets the Mayoral outcome 4: London's streets will be clean and green? **Neither agree nor disagree**

Q18 Do you think the borough objectives LO26- LO32 meets the Mayoral outcome 5: The public transport network will meet the needs of a growing London? **Agree**

Q19 Do you think the borough objectives LO33- LO38 meets the Mayoral outcome 6: Public transport network will be safe, affordable and accessible to all? **Neither agree nor disagree**

Q20 Do you think the borough objectives LO39- LO40 meets the Mayoral outcome 7: Journeys by public transport will be pleasant, fast and reliable? **Agree**

Q21 Do you think the borough objectives LO41- LO47 meets the Mayoral outcome 8: Active, efficient and sustainable travel will be the best option in new developments? **Neither agree nor disagree**

London Borough of Merton draft transport plan: Local Implementation Plan 3 (LIP3)

Q22 Do you think the borough objectives LO48- LO49 meets the Mayoral outcome 9: Transport investment will unlock the delivery of new homes and jobs?

Neither agree nor disagree

Q23 Do you agree with the overall detailed three year indicative programme of investment for 2019/20 to 2021/22?

Respondent skipped this question

Q24 Do you support the individual projects within the programme?

Respondent skipped this question

Q25 Would you like to see a Liveable neighborhood scheme implemented in your area?

Yes

Q26 Do you support the schemes listed in the longer term plan? (see page 61)

Respondent skipped this question

Q27 Do you have any other comments on the draft LIP3?

Connections by bus between different parts of the borough and east-west connections to other boroughs need to be a priority to reduce car journeys. Also street trees are repeatedly being hacked away due to cctv issues - better siting of cameras should be used to avoid damaging or cutting trees.

Q12 Please select how often you use each modes of transport

Walk	At least once a day
Cycle	Never
Bus	At least once a day
Business vehicle	Never
Car club	Less than once a month
Taxi/private hire	Less than once a month
Tram	Less than once a month
Train (railway)	Less than once a month
Tube (underground)	At least once a day
Car	Never

Q13 Do you think we have captured the key transport challenges affecting the borough? **Disagree**

Q14 Do you think the borough objectives LO1- LO7 meets the Mayoral outcome 1: London's streets will be healthy and more Londoners will travel actively? **Disagree**

Q15 Do you think the borough objectives LO8- LO13 meets the Mayoral outcome 2: London's streets will be safe and secure? **Disagree**

Q16 Do you think the borough objectives LO14- LO18 meets the Mayoral outcome 3: London's streets will be used more efficiently and have less traffic? **Neither agree nor disagree**

Q17 Do you think the borough objectives LO19- LO25 meets the Mayoral outcome 4: London's streets will be clean and green? **Disagree**

Q18 Do you think the borough objectives LO26- LO32 meets the Mayoral outcome 5: The public transport network will meet the needs of a growing London? **Disagree**

Q19 Do you think the borough objectives LO33- LO38 meets the Mayoral outcome 6: Public transport network will be safe, affordable and accessible to all? **Disagree**

Q20 Do you think the borough objectives LO39- LO40 meets the Mayoral outcome 7: Journeys by public transport will be pleasant, fast and reliable? **Neither agree nor disagree**

Q21 Do you think the borough objectives LO41- LO47 meets the Mayoral outcome 8: Active, efficient and sustainable travel will be the best option in new developments? **Strongly agree**

Q22 Do you think the borough objectives LO48- LO49 meets the Mayoral outcome 9: Transport investment will unlock the delivery of new homes and jobs? **Agree**

Q23 Do you agree with the overall detailed three year indicative programme of investment for 2019/20 to 2021/22? **Agree**

Q24 Do you support the individual projects within the programme? **Agree**

Q25 Would you like to see a Liveable neighborhood scheme implemented in your area? If yes, why? :
We have problems with bad parking of work vans everywhere and fly tipping making walking unpleasant. Anything will help, even if it's not going to be enough.

Q26 Do you support the schemes listed in the longer term plan? (see page 61)

Freight consolidation facility/Wimbledon central collection	Strongly agree
Crossrail 2	Strongly agree
South London workplace parking levy	Disagree
Sutton tram link/bus rapid transport	Strongly agree
Willow Lane	Strongly agree
London tram dual tracking between Morden Road and Phipps Bridge	Strongly agree
Morden tram southern access to Dorset Road	Strongly agree
Step free access Mottsphur Park and Raynes Park stations and other stations	Strongly agree

Q27 Do you have any other comments on the draft LIP3?

It's not v ambitious in how it will increase services such as parenting groups and exercise schemes to the east of the borough which pretty much has none presently. No indication either of how to join up the fractured and always just a bit inconvenient transport connections between east of the borough and elsewhere.

Step free access Motsphur Park and Raynes Park stations and other stations	Strongly agree

Q27 Do you have any other comments on the draft LIP3?

The national campaign group 20's Plenty for Us is delighted that LB Merton has taken the steps to introduce a borough-wide 20mph limit and that is funded in the LIP3 programme over the next 3 years. It has been excellent to see the recent TROs for the roads in the east of the borough and to learn from this programme that the remainder of the borough will be adopting 20mph limits in the next year or so. There is of course much more to do in order to increase compliance with lower speed limits as average vehicle speeds tend to fall by around 1mph once a 20mph limit is introduced rather than achieving the target figure of a 20mph maximum. Obviously, the London boroughs need support from TfL to help increase these levels of compliance but there are a couple of measures that boroughs can themselves adopt to support the move to Vision Zero. We would strongly advocate consideration of the following by LB Merton as they are not referenced in the draft LIP3 Transport Plan.

1. Intelligent Speed Adaptation (ISA). In London all new buses are now fitted with mandatory speed limiters that operate in conjunction with the TfL digital speed limit map to ensure compliance with the posted speed limit. The research into the Bus ISA trial in 2015 found 97-99% compliance with the 20mph speed limit. This means that new technology can work to increase compliance with speed limits in a way that does not involve police resources OR penalise drivers through fines etc. The TfL Vision Zero Action plan envisages that ISA will a) be rolled out to the whole bus fleet over the next few years and b) that this approach may, over time, be able to be extended to cover all working vehicles. We believe that there is a strong argument that vehicles that are being used for work should not be able to exceed the speed limit. If this requirement was introduced there would be huge savings in insurance costs for fleet owners. We suggest that the following policies should be adopted by LB Merton (and other London boroughs), for all new vehicles from an agreed time on in the future (eg 2022) and that, in the following categories, mandatory ISA should become a requirement:

- Require mandatory ISA in its own fleet procurement practices as part of its renewal programme (eg its own vans and cars or waste vehicles);
- Ensure ISA is a standard requirement for any service procured by the authority with a fleet requirement (eg fleets associated with housing repairs);
- Promote the installation of ISA in taxis and private hire vehicles and encourage ISA as a requirement for new taxis and private hire licensing;
- Encourage the uptake of ISA in other fleets, such as hauliers, construction firms and coach operators; this could be an aspect of granting planning applications;
- Work with the insurance industry and vehicle manufacturers to promote and encourage the use of ISA in private vehicles;
- Include mandatory ISA for all car club vehicles that are operating in or from a base in the borough.

2. Reducing Danger At Source – Low Traffic Neighbourhoods.

There has long been concern about the decline of our residential areas, neighbourhoods and communities. What were once havens of social and community interaction and streets where children played are now rat-runs for WAZE or Sat-Nav fitted vehicles seeking to shave a few seconds off a journey. Residential streets are lined with parked cars that remain stationary for almost all of the time. Children who once played out are now nowhere to be seen as their mobility has shrunk to almost zero over the past 70 years. We believe that Low Traffic Neighbourhoods are a way of addressing this. Tried and tested in Waltham Forest and Hackney, they take a neighbourhood of streets and, through a series of filters, deter through traffic while still allowing all residents and deliveries to access each and every property. The LTNs that have been introduced to date have seen air pollution and casualties go down and the numbers walking and cycling increase. We believe that LTNs are a way of reversing the trends of the previous three generations and starting to imbue our residential areas with life once again and that LB Merton should consider their introduction in conjunction with local residents across the borough. There are a number of guides on how to implement LTNs available (<https://londonlivingstreets.com/low-traffic-liveable-neighbourhoods/>) and information on their positive impact on casualties, walking and cycling, reduced vehicle usage and improved air pollution (http://www.guardian-series.co.uk/news/14870219.Thousands_fewer_cars_are_using_roads_since_Mini_Holland_launch/?ref=mrb&lp=AND AND <https://www.standard.co.uk/news/london/children-will-live-longer-thanks-to-waltham-forests-mini-holland-cycle-scheme-a3903256.html>)

Q24 Do you support the individual projects within the programme? **Strongly agree**

Q25 Would you like to see a Liveable neighborhood scheme implemented in your area? **If yes, why? :**
 Mitcham is car dominated neighborhood with a high degree of through traffic which discourages active travel.

Q26 Do you support the schemes listed in the longer term plan? (see page 61)

Freight consolidation facility/Wimbledon central collection	Disagree
Crossrail 2	Disagree
South London workplace parking levy	Strongly disagree
Sutton tram link/bus rapid transport	Strongly disagree
Willow Lane	Disagree
London tram dual tracking between Morden Road and Phipps Bridge	Strongly disagree
Morden tram southern access to Dorset Road	Disagree
Step free access Mottsphur Park and Raynes Park stations and other stations	Disagree

Q27 Do you have any other comments on the draft LIP3?

I strongly support the implementation of a shared use path on Commonsides West to improve the cycle link between Croydon and Mitcham. I would also like this link to be better integrated with the new cycling facilities introduced from the Mitcham Town Centre improvements to make greater use of this asset. Long term I would like an integrated cycle path from Mitcham town centre to continue to Collier's wood to link up with CS7, and potentially onto Raynes Park providing an integrated cycling corridor across the borough.

London Borough of Merton draft transport plan: Local Implementation Plan 3 (LIP3)

<p>Q22 Do you think the borough objectives LO48- LO49 meets the Mayoral outcome 9: Transport investment will unlock the delivery of new homes and jobs?</p>	<p>Neither agree nor disagree</p>
<p>Q23 Do you agree with the overall detailed three year indicative programme of investment for 2019/20 to 2021/22?</p>	<p>Neither agree nor disagree</p>
<p>Q24 Do you support the individual projects within the programme?</p>	<p>Agree</p>
<p>Q25 Would you like to see a Liveable neighborhood scheme implemented in your area?</p>	<p>If yes, why? : to demonstrate how these principles might work for residents living on a busy road (Worple Road in this case) however I accept there are other areas in the Borough that have a higher priority</p>
<p>Q26 Do you support the schemes listed in the longer term plan? (see page 61)</p>	
<p>Freight consolidation facility/Wimbledon central collection</p>	<p>Agree</p>
<p>Crossrail 2</p>	<p>Strongly agree</p>
<p>South London workplace parking levy</p>	<p>Agree</p>
<p>Sutton tram link/bus rapid transport</p>	<p>Agree</p>
<p>Willow Lane</p>	<p>Agree</p>
<p>London tram dual tracking between Morden Road and Phipps Bridge</p>	<p>Agree</p>
<p>Morden tram southern access to Dorset Road</p>	<p>Agree</p>
<p>Step free access Mottsphur Park and Raynes Park stations and other stations</p>	<p>Strongly agree</p>

Q27 Do you have any other comments on the draft LIP3?

- a) priorities seem good but are they all achievable against limited resources? The shocking disparity of health/life outcomes between the east and west parts of Merton suggest that the projects that have the most direct bearing on these should be the core priorities
- b) the plan references noise pollution but doesn't make much attempt to address this. Would be good to recognise that noise is not just passing traffic but high volumes of heavy vehicles (aggregate, construction, skips etc) as well as buses) banging up and down on badly maintained roads; 20mph borough wide limit would go some way to address this; but resurfacing bad roads would have a significant effect. No mention of road surfacing as an environmental factor. I would encourage you to consider this. Business case for 20mph zone would be boosted by noise reduction health benefits, plus presumably, lower ongoing costs due to less wear and tear.
- c) 20mph borough wide zone: very welcome; but implementation plan says 'seek to deliver'. What does that mean? A firm commitment to deliver it would be very much better, however £530k budget over the 3 year plan doesn't sound enough. Would be good to get clarity on what is achievable here.
- d) a simple zero-cost measure on air quality would be for Merton to lobby TFL to display stickers on their buses showing what standard that particular bus meets. Currently TFL is very slippery on which buses meet what standards. Having stickers would raise public awareness of the many buses that fail to meet the latest standards, and increase pressure for a more equitable delivery of low-emissions busses across greater London.
-

Page 3: Your comments on the draft LIP3.

Q12 Please select how often you use each modes of transport

Walk	At least once a day
Cycle	Never
Bus	More than once a week
Business vehicle	Never
Car club	Never
Taxi/private hire	Less than once a month
Tram	Less than once a month
Train (railway)	Several times a month
Tube (underground)	Several times a month
Car	More than once a week

Q13 Do you think we have captured the key transport challenges affecting the borough? **Agree**

Q14 Do you think the borough objectives LO1- LO7 meets the Mayoral outcome 1: London's streets will be healthy and more Londoners will travel actively? **Neither agree nor disagree**

Q15 Do you think the borough objectives LO8- LO13 meets the Mayoral outcome 2: London's streets will be safe and secure? **Neither agree nor disagree**

Q16 Do you think the borough objectives LO14- LO18 meets the Mayoral outcome 3: London's streets will be used more efficiently and have less traffic? **Neither agree nor disagree**

Q17 Do you think the borough objectives LO19- LO25 meets the Mayoral outcome 4: London's streets will be clean and green? **Neither agree nor disagree**

Q18 Do you think the borough objectives LO26- LO32 meets the Mayoral outcome 5: The public transport network will meet the needs of a growing London? **Neither agree nor disagree**

Q19 Do you think the borough objectives LO33- LO38 meets the Mayoral outcome 6: Public transport network will be safe, affordable and accessible to all? **Neither agree nor disagree**

Q20 Do you think the borough objectives LO39- LO40 meets the Mayoral outcome 7: Journeys by public transport will be pleasant, fast and reliable? **Neither agree nor disagree**

Q21 Do you think the borough objectives LO41- LO47 meets the Mayoral outcome 8: Active, efficient and sustainable travel will be the best option in new developments? **Neither agree nor disagree**

London Borough of Merton draft transport plan: Local Implementation Plan 3 (LIP3)

Q22 Do you think the borough objectives LO48- LO49 meets the Mayoral outcome 9: Transport investment will unlock the delivery of new homes and jobs?	Neither agree nor disagree
Q23 Do you agree with the overall detailed three year indicative programme of investment for 2019/20 to 2021/22?	Neither agree nor disagree
Q24 Do you support the individual projects within the programme?	Agree
Q25 Would you like to see a Liveable neighborhood scheme implemented in your area?	No
Q26 Do you support the schemes listed in the longer term plan? (see page 61)	
Freight consolidation facility/Wimbledon central collection	Neither disagree or agree
Crossrail 2	Neither disagree or agree
South London workplace parking levy	Disagree
Sutton tram link/bus rapid transport	Agree
Willow Lane	Agree
London tram dual tracking between Morden Road and Phipps Bridge	Strongly agree
Morden tram southern access to Dorset Road	Agree
Step free access Mottsphur Park and Raynes Park stations and other stations	Strongly agree
Q27 Do you have any other comments on the draft LIP3?	Respondent skipped this question

Willow Lane	Neither disagree or agree
London tram dual tracking between Morden Road and Phipps Bridge	Agree
Morden tram southern access to Dorset Road	Neither disagree or agree
Step free access Mottsphur Park and Raynes Park stations and other stations	Agree

Q27 Do you have any other comments on the draft LIP3?

Potential to add a vital cycle route at little cost; move quietway from Elm Road to Parkway and at the end of Parkway/Heath Drive (paddock Allotment), construct a cycle path along the pathway there already to the surfaced road at side of Raynes Park Vale ground. Here it would join up with your proposed cycleway through Joseph Hood that links up with Grand Drive. This way you have a cyclepath that runs parallel to Grand Drive 3/4 way to Raynes Park station. Grand Drive is dangerous to cycle along especially heading south. The path would only need to be 100m long, seems a good investment.

(no label)

Q27 Do you have any other comments on the draft LIP3?

Your document needs to be redrafted as follows and advice taken from the council's tree officers:

3.82 MTS Policy 8, proposal 43: Street trees add to the aesthetics of an area helping to create a more pleasant public realm and local identity. They also give added social value and help support business. They make for a more appealing walking environment and offer protection from the weather by providing protection from the heat, sun and rain thereby mitigating the impact of climate change. Trees also absorb rain through their leaf and root systems, thereby reducing water overloading the drainage network, as well as improving air quality by their absorption of CO₂ & NO_x gases.

3.83 The council will seek to retain trees where reasonably possible but where tree removal is necessary, a suitable replacement approach will be taken forward that reflects the maturity, volume, size, value and condition of the trees to be felled, based on the nationally recognised Capital Asset Valuation of Amenity Trees or CAVAT system (see <https://www.ltoa.org.uk/documents-1/capital-asset-value-for-amenity-trees-cavat/174-cavat-all-versions-updated-may-2015>) . This 43 process will be undertaken in collaboration with the council's Greenspaces team. Significant All highway schemes should seek to incorporate additional green infrastructure in their design and allow for the locations of trees when positions for CCTV cameras are considered, to protect trees from potential pruning works. The planning department should also be proactive wherever possible, by incorporating additional green infrastructure into private land.

Car club	Never
Taxi/private hire	Less than once a month
Tram	More than once a week
Train (railway)	More than once a week
Tube (underground)	More than once a week
Car	More than once a week

Q13 Do you think we have captured the key transport challenges affecting the borough? **Agree**

Q14 Do you think the borough objectives LO1- LO7 meets the Mayoral outcome 1: London's streets will be healthy and more Londoners will travel actively? **Agree**

Q15 Do you think the borough objectives LO8- LO13 meets the Mayoral outcome 2: London's streets will be safe and secure? **Neither agree nor disagree**

Q16 Do you think the borough objectives LO14- LO18 meets the Mayoral outcome 3: London's streets will be used more efficiently and have less traffic? **Neither agree nor disagree**

Q17 Do you think the borough objectives LO19- LO25 meets the Mayoral outcome 4: London's streets will be clean and green? **Agree**

Q18 Do you think the borough objectives LO26- LO32 meets the Mayoral outcome 5: The public transport network will meet the needs of a growing London? **Agree**

Q19 Do you think the borough objectives LO33- LO38 meets the Mayoral outcome 6: Public transport network will be safe, affordable and accessible to all? **Neither agree nor disagree**

Q20 Do you think the borough objectives LO39- LO40 meets the Mayoral outcome 7: Journeys by public transport will be pleasant, fast and reliable? **Neither agree nor disagree**

Q21 Do you think the borough objectives LO41- LO47 meets the Mayoral outcome 8: Active, efficient and sustainable travel will be the best option in new developments? **Agree**

Q22 Do you think the borough objectives LO48- LO49 meets the Mayoral outcome 9: Transport investment will unlock the delivery of new homes and jobs? **Agree**

Q23 Do you agree with the overall detailed three year indicative programme of investment for 2019/20 to 2021/22? **Agree**

Q24 Do you support the individual projects within the programme? **Agree**

Q25 Would you like to see a Liveable neighborhood scheme implemented in your area? If yes, why? :
Preserve or improve quality of life

Q26 Do you support the schemes listed in the longer term plan? (see page 61)

Freight consolidation facility/Wimbledon central collection	Agree
Crossrail 2	Agree
South London workplace parking levy	Agree
Sutton tram link/bus rapid transport	Strongly agree
Willow Lane	Strongly agree
London tram dual tracking between Morden Road and Phipps Bridge	Strongly agree
Morden tram southern access to Dorset Road	Strongly agree
Step free access Motsphur Park and Raynes Park stations and other stations	Strongly agree

Q27 Do you have any other comments on the draft LIP3?

Where I have said “agree” rather than “strongly agree” I have concerns about deliverability of the item and feel that the item is not going to suit everyone – particularly the ageing population.

For Car Club Membership to become usefully convenient, there needs to be availability in every street or at least within a 5 minute walk for everyone.

For electric or hybrid cars to become the norm, there needs to be adequate availability of charging points on every street. Electric and hybrid car prices need to become hugely more affordable .

5.17 I strongly support the provision of access from Dorset Road to the Morden Road tram-stop. Present access uses a lengthy staircase and, with an ageing population, the new pathway could provide step-free access. All possible pressure should be brought to bear to complete the access route , including the threat of Compulsory Purchase Order (not necessarily linked to S106.

Tube (underground)	Several times a month
Car	Never

Q13 Do you think we have captured the key transport challenges affecting the borough? **Agree**

Q14 Do you think the borough objectives LO1- LO7 meets the Mayoral outcome 1: London's streets will be healthy and more Londoners will travel actively? **Agree**

Q15 Do you think the borough objectives LO8- LO13 meets the Mayoral outcome 2: London's streets will be safe and secure? **Agree**

Q16 Do you think the borough objectives LO14- LO18 meets the Mayoral outcome 3: London's streets will be used more efficiently and have less traffic? **Neither agree nor disagree**

Q17 Do you think the borough objectives LO19- LO25 meets the Mayoral outcome 4: London's streets will be clean and green? **Neither agree nor disagree**

Q18 Do you think the borough objectives LO26- LO32 meets the Mayoral outcome 5: The public transport network will meet the needs of a growing London? **Neither agree nor disagree**

Q19 Do you think the borough objectives LO33- LO38 meets the Mayoral outcome 6: Public transport network will be safe, affordable and accessible to all? **Neither agree nor disagree**

Q20 Do you think the borough objectives LO39- LO40 meets the Mayoral outcome 7: Journeys by public transport will be pleasant, fast and reliable? **Neither agree nor disagree**

Q21 Do you think the borough objectives LO41- LO47 meets the Mayoral outcome 8: Active, efficient and sustainable travel will be the best option in new developments? **Neither agree nor disagree**

London Borough of Merton draft transport plan: Local Implementation Plan 3 (LIP3)

Q22 Do you think the borough objectives LO48- LO49 meets the Mayoral outcome 9: Transport investment will unlock the delivery of new homes and jobs?

Neither agree nor disagree

Q23 Do you agree with the overall detailed three year indicative programme of investment for 2019/20 to 2021/22?

Agree

Q24 Do you support the individual projects within the programme?

Agree

Q25 Would you like to see a Liveable neighborhood scheme implemented in your area?

If yes, why? :
I strongly object to the harmful effects of traffic

Q26 Do you support the schemes listed in the longer term plan? (see page 61)

Freight consolidation facility/Wimbledon central collection

Neither disagree or agree

Crossrail 2

Neither disagree or agree

South London workplace parking levy

Strongly agree

Sutton tram link/bus rapid transport

Agree

Willow Lane

Neither disagree or agree

London tram dual tracking between Morden Road and Phipps Bridge

Agree

Morden tram southern access to Dorset Road

Agree

Step free access Motpshur Park and Raynes Park stations and other stations

Strongly agree

Q27 Do you have any other comments on the draft LIP3?

Please enforce the 20mph limits as they are widely ignored. Please put in traffic-calming on residential roads and end rat-running. Please put in signage to deter idling.

Q25 Would you like to see a Liveable neighborhood scheme implemented in your area? **No**

Q26 Do you support the schemes listed in the longer term plan? (see page 61)

Willow Lane **Strongly agree**

London tram dual tracking between Morden Road and Phipps Bridge **Strongly agree**

Morden tram southern access to Dorset Road **Strongly agree**

Q27 Do you have any other comments on the draft LIP3?

1. Most important: step-free access to Morden Road Tram stop from Dorset Road - for a very small cost the benefits are huge, for the adjacent school & for all Merton Park residents who use the tram.
 2. Track doubling from Morden Road to Phipps Bridge tram stops: this is the only single-line length on the very busy Wimbledon branch and often causes delays.

Q14 Do you think the borough objectives LO1- LO7 meets the Mayoral outcome 1: London's streets will be healthy and more Londoners will travel actively? **Neither agree nor disagree**

Q15 Do you think the borough objectives LO8- LO13 meets the Mayoral outcome 2: London's streets will be safe and secure? **Neither agree nor disagree**

Q16 Do you think the borough objectives LO14- LO18 meets the Mayoral outcome 3: London's streets will be used more efficiently and have less traffic? **Neither agree nor disagree**

Q17 Do you think the borough objectives LO19- LO25 meets the Mayoral outcome 4: London's streets will be clean and green? **Neither agree nor disagree**

Q18 Do you think the borough objectives LO26- LO32 meets the Mayoral outcome 5: The public transport network will meet the needs of a growing London? **Neither agree nor disagree**

Q19 Do you think the borough objectives LO33- LO38 meets the Mayoral outcome 6: Public transport network will be safe, affordable and accessible to all? **Neither agree nor disagree**

Q20 Do you think the borough objectives LO39- LO40 meets the Mayoral outcome 7: Journeys by public transport will be pleasant, fast and reliable? **Neither agree nor disagree**

Q21 Do you think the borough objectives LO41- LO47 meets the Mayoral outcome 8: Active, efficient and sustainable travel will be the best option in new developments? **Neither agree nor disagree**

London Borough of Merton draft transport plan: Local Implementation Plan 3 (LIP3)

Q22 Do you think the borough objectives LO48- LO49 meets the Mayoral outcome 9: Transport investment will unlock the delivery of new homes and jobs?

Neither agree nor disagree

Q23 Do you agree with the overall detailed three year indicative programme of investment for 2019/20 to 2021/22?

Neither agree nor disagree

Q24 Do you support the individual projects within the programme?

Agree

Q25 Would you like to see a Liveable neighborhood scheme implemented in your area?

Respondent skipped this question

Q26 Do you support the schemes listed in the longer term plan? (see page 61)

Freight consolidation facility/Wimbledon central collection

Strongly agree

Crossrail 2

Strongly agree

South London workplace parking levy

Strongly agree

Sutton tram link/bus rapid transport

Strongly agree

Willow Lane

Strongly agree

London tram dual tracking between Morden Road and Phipps Bridge

Strongly agree

Morden tram southern access to Dorset Road

Strongly agree

Step free access Mottsphur Park and Raynes Park stations and other stations

Strongly agree

Q27 Do you have any other comments on the draft LIP3?

Merton's draft Transport Plan has a number of good initiatives and aspirations, including recognition that walking and cycling should be given more priority, the adoption of TfL's Healthy Streets Indicators, support for more charging points, dock-less bikes, e-bikes and car share initiatives and help for small businesses and low income people to move to less polluting vehicles.

Worryingly active travel rates and exercise rates in London have been falling in recent years and use of cars has been rising. Turning this around will not be easy and more robust action is needed to achieve a step change in how people move around.

Paragraph 2.43

Walking between Mitcham Tram Stop and Mitcham town centre (including Vestry Hall, Citizens Advice and JobCentre Plus) is exceptionally difficult. It is unpleasant walking along these busy roads, with noise and air pollution. Crossing London Road (A217) takes far too long at the pedestrian crossings and it is very dangerous to cross elsewhere. There is no proper pedestrian crossing across Cricket Green (A239) – so crossing can take a while and means running across when there is a gap in the traffic. Lack of easy crossing represents a very real barrier to walking.

So people should be given more of a priority at crossings, there should be a pedestrian crossing across Cricket Green, the volume of traffic along the London Road (A217) should be reduced and the London Road pavement should be widened with more greenery included.

Paragraph 3.21 should be amended to include these crossings. As it stands, this important walking connection does not comply with the London Mayor's Healthy Streets principles and qualify for action according to Transport Plan paragraphs:

London Borough of Merton draft transport plan: Local Implementation Plan 3 (LIP3)

“2.43 The most direct and convenient walking routes between town centres and key attractors are often along difficult to cross, busy, traffic dominated connector streets and junctions.”

Also

“3.19 the most vulnerable people are often confronted by busy road junctions with poor crossing facilities and fast turning traffic. In the past priority has indirectly focused reducing network delays and bus reliability sometimes to the detriment of active modes.”

And

“3.22 Along walking corridors, including busier streets the council intends to reduce turning speeds and give greater pedestrian priority through a mix of junction narrowing and/or entry treatments. We will also trial the use of continuous pavement to create a stronger feel of priority to pedestrians”

And

“3.46 Similarly, access routes to some of Merton’s more out-of-the-way rail stations, bus and tram stops can sometimes be difficult to reach due to heavy traffic narrow pavements and poor crossing facilities at junctions, adding to a feeling of isolation.”

Paragraph 2.48

There should be an additional aim of LIP3 to specifically address the barriers for walkers and cyclists. In particular:

- Pavement parking regulations should be aggressively enforced. Penalties should be publicised to the general public and to delivery companies and trade.
- Shops, cafes and businesses often put signs, tables and chairs on pavements. This is fine but it should comply with their permits. The extent of pavement use should be publicised to inform people so that they can more easily challenge incorrect use of the pavement and staff who often don’t know how much of the pavement they are allowed to use. Currently, there is no way for people to find out how much of a pavement can be legally used.
- There should be an easy and well publicised way for people to submit ideas on how to improve the walking/cycling space. The people who use these spaces regularly know where the problems lie. These might be:
 - o broken or uneven paving,
 - o too much pavement clutter,
 - o places which could be greened up with a tree or planting,
 - o difficult/dangerous road crossings,
 - o faded road markings,
 - o inconsiderate loading,
 - o insufficient pavement space,
 - o neglect or obstruction of Public Rights of Way
 - o HGVs cutting through residential roads
- It is often the little things that make a difference. When people find that the small hinderances are not addressed and regulations on pavement use are not strictly enforced, then it feels like walking and cycling are low value. More attention to these details would improve the walking/cycling space and encourage more use of it.
- For cyclists, there is often little provision for cyclists on Merton’s busiest roads. More safe segregated lanes are needed and drivers should be reminded to give cyclists a wide berth. Close passing is still a big problem, usually due to people not thinking about how cyclists need extra room and occasionally aggressive close passing. (See the Too Close for Comfort scheme to train motorists to pass cycles at a safe distance at <https://www.kickstarter.com/projects/cyclinguk/toocloseforcomfort-the-close-pass-cycle-mat>)

Paragraph 3.4

The Local Plan should include provision for pick up and drop off of parcels in each neighbourhood, to reduce delivery traffic and transport hubs for consolidated deliveries to individual businesses. Delivery vehicles should be of an appropriate size for the narrow, congested streets in our town centres. This would help address congestion as outlined in paragraph 3.28:

London Borough of Merton draft transport plan: Local Implementation Plan 3 (LIP3)

congested streets in our town centre. This would help address congestion as outlined in paragraph 3.20.

“ shifts in peoples shopping habits, app based services is driving freight growth, including through increased home deliveries, especially for non-food items and rise of larger retail centres. These factors are expected, if no action is taken to combine resulting in increased congestion across the road network.”

Paragraph 3.23

How will the council’s Leisure and Highways team develop the minor interventions programme? Will they be consulting with local people, including through residents’ associations, ‘Friends of’ groups, schools, scouts, guides, care homes, carers and other local groups? A way for people to input their ideas on an ongoing basis should be included.

Paragraph 3.26

There should also be an aim to develop a more direct walking/cycling link between the Wandle Path and Wimbledon Town Centre. If Crossrail goes ahead, this would provide a good opportunity to include a dedicated cycle/walking path alongside the railway.

Paragraph 3.47

Mitigation actions should include reducing the total traffic e.g. via a ULEZ. This would mean that reliability can be maintained when crossing times are changed in favour of pedestrians.

Paragraphs 3.50 & 3.51

The development of regional delivery hubs and last mile delivery services should be prioritised, to rationalise delivery to town centre businesses. Appropriate sized vehicles should be used, with very limited access by large delivery lorries severely to narrow, congested streets. Over-large lorries cause congestion, are an obstacle to road crossing and often cause structural damage to our streets, knocking over bollards etc.

Paragraph 3.52

Roads should be engineered to allow access to residential roads, but not through traffic. Residential streets are widely used by cyclists and pedestrians seeking a safer, less polluted, quieter route – and these benefits are lost if there is rat-running.

Paragraph 3.74

MTS Policy 6, proposal 27

The School Run: There should be stricter observance of catchment area criteria for school admittance, with a commitment from parents that they will not drive their children to school (unless there is a very good reason for it), before school places are confirmed. This should include private schools – and if this is not possible, then the council should lobby for regulations to allow this.

Paragraphs 3.79 & 3.81

MTS Policy 6, proposal 35:

The council should prioritise the use of emission-based parking charges, local low emission or restricted access streets, and mini-ULEZs around schools, health centres, town centres and anywhere else that people spend a lot of time in.

Paragraph 3.81

The council should actively press for the expansion of the ULEZ to the whole of Greater London as soon as possible (not just engage on the issue.)

Paragraph 3.82

Trees also mitigate the impacts of climate change. By absorbing rain, trees reduce the risk of water overloading the drainage network, as well as improving air quality by their absorption of CO₂ & NO_x gases.

Paragraph 3.83

When replacing trees, this should be based on the nationally recognised Capital Asset Valuation of Amenity Trees or CAVAT system. All highway schemes should seek to incorporate additional green infrastructure in their design. Also, location of CCTV cameras should be such that trees do not have to be pruned to allow the cameras to work. The planning department should also be proactive wherever possible, by incorporating additional green infrastructure into private land.

LO41

Public health and environmental considerations should be given much more priority in planning decisions. Details should be given

London Borough of Merton draft transport plan: Local Implementation Plan 3 (LIP3)

Public health and environmental considerations should be given much more priority in planning decisions. Priority should be given to active travel options and buildings for vulnerable people should not be in areas of high air pollution. Providing a healthy environment inside of buildings should be required of new developments, with adherence to WELL building standards for commercial buildings and attention to materials to avoid harmful emissions in social and private housing developments.

Paragraph 3.132

Cycling on Wimbledon Common

The council should also press Wimbledon Common Trustees to provide commuter routes for cyclists across and along the perimeter of Wimbledon Common.

Paragraph 3.136

In Morden town centre development, there should also be an aim to provide good quality outside space where people can walk and sit outdoors in a pleasant and peaceful environment i.e. to comply with 'People feel relaxed' and 'Things to see and do', according to the Mayor's Healthy Street Indicators.

Tram	Less than once a month
Train (railway)	Several times a month
Tube (underground)	Several times a month
Car	Once a week

Q13 Do you think we have captured the key transport challenges affecting the borough? **Strongly disagree**

Q14 Do you think the borough objectives LO1- LO7 meets the Mayoral outcome 1: London's streets will be healthy and more Londoners will travel actively? **Strongly disagree**

Q15 Do you think the borough objectives LO8- LO13 meets the Mayoral outcome 2: London's streets will be safe and secure? **Strongly disagree**

Q16 Do you think the borough objectives LO14- LO18 meets the Mayoral outcome 3: London's streets will be used more efficiently and have less traffic? **Strongly disagree**

Q17 Do you think the borough objectives LO19- LO25 meets the Mayoral outcome 4: London's streets will be clean and green? **Strongly disagree**

Q18 Do you think the borough objectives LO26- LO32 meets the Mayoral outcome 5: The public transport network will meet the needs of a growing London? **Strongly disagree**

Q19 Do you think the borough objectives LO33- LO38 meets the Mayoral outcome 6: Public transport network will be safe, affordable and accessible to all? **Neither agree nor disagree**

Q20 Do you think the borough objectives LO39- LO40 meets the Mayoral outcome 7: Journeys by public transport will be pleasant, fast and reliable? **Strongly disagree**

London Borough of Merton draft transport plan: Local Implementation Plan 3 (LIP3)

Q21 Do you think the borough objectives LO41- LO47 meets the Mayoral outcome 8: Active, efficient and sustainable travel will be the best option in new developments?

Strongly disagree

Q22 Do you think the borough objectives LO48- LO49 meets the Mayoral outcome 9: Transport investment will unlock the delivery of new homes and jobs?

Strongly disagree

Q23 Do you agree with the overall detailed three year indicative programme of investment for 2019/20 to 2021/22?

Strongly disagree

Q24 Do you support the individual projects within the programme?

Strongly disagree

Q25 Would you like to see a Liveable neighborhood scheme implemented in your area?

If yes, why? :

To reduce impact of heavy industrial traffic, improve chances of better air quality, facilitate better cycling, improve child health, increase greenery etc etc

Q26 Do you support the schemes listed in the longer term plan? (see page 61)

Freight consolidation facility/Wimbledon central collection

Strongly agree

Crossrail 2

Neither disagree or agree

South London workplace parking levy

Strongly agree

Sutton tram link/bus rapid transport

Strongly agree

Willow Lane

Strongly agree

London tram dual tracking between Morden Road and Phipps Bridge

Agree

Morden tram southern access to Dorset Road

Strongly agree

Step free access Mottsphur Park and Raynes Park stations and other stations

Strongly agree

Q27 Do you have any other comments on the draft LIP3?

Reading this document shows that Merton Council should seek ongoing expert input from a cycling champion/expert/consultant. I would like to see this document make a stated commitment to providing properly protected space for cycling on all main roads, especially since Merton Council is the Highway Authority for the majority of roads in the borough.

I have a number of further comments, which I intend to email to FutureMerton.

Step free access Motsphur Park and Raynes Park stations and other stations **Strongly agree**

Q27 Do you have any other comments on the draft LIP3?

Lots of great ideas. However I have difficulty believing that there is the will to implement. I have asked several times through various routes for a cycle ASL going north at South Wimbledon station and have been told that TFL won't allow it because of traffic flows. No data supplied. How does this prioritise active transport?

Strongly disagree

Q24 Do you support the individual projects within the programme?

Strongly disagree

Q25 Would you like to see a Liveable neighborhood scheme implemented in your area?

If yes, why? :

Rat-running is rife. Merton Council has so far failed to put in place any measures to enable people, especially children, older people or disabled people to walk or cycle so far. For many disabled an adapted bicycle is their most convenient form of transport (see Wheels for Wellbeing). I'm hope this is an error "The council will work with residents to investigate and implement measures to reduce through traffic on local roads, including measures, such as filtered permeability schemes where access is restricted to cyclists" - hopefully Merton means restricted to motorists??!! Basic things like modal filters and allowing people to cycle both ways on one way streets are long overdue in Merton, very cheap need to be installed in area wide way. It's currently virtually impossible to walk or cycle given the current hostile environment which has been promoted by Merton Council to date. I'm concerned that LIP3 says "encouraging students to choose more sustainable ways to travel to school and to avoid more heavily polluted routes" Most people don't need to be encouraged to cycle, rather Merton Council needs to provide roads which enable/allow walking and cycling. No amount of leafletting, hi-vis, 'encouragement' will help if the Council is not putting in modal filters, protected cycle routes, crossings - the basics to protect people from the threat of motor vehicles.

Q26 Do you support the schemes listed in the longer term plan? (see page 61)

Freight consolidation facility/Wimbledon central collection	Disagree
Crossrail 2	Strongly agree
South London workplace parking levy	Strongly agree
Sutton tram link/bus rapid transport	Strongly agree
Willow Lane	Neither disagree or agree
London tram dual tracking between Morden Road and Phipps Bridge	Agree
Morden tram southern access to Dorset Road	Agree
Step free access Motsphur Park and Raynes Park stations and other stations	Agree

Q27 Do you have any other comments on the draft LIP3?

Rat-running is rife. Merton Council has so far failed to put in place any measures to enable people, especially children, older people or disabled people to walk or cycle so far. For many disabled an adapted bicycle is their most convenient form of transport (see Wheels for Wellbeing).

MTS Policy 2, proposal 7 - "Too many parents still choose to take their children to school by car increasing congestion on the road network and in close proximity to the school, especially during the morning and evening peak"

This is a deeply unfair statement

80% of adults are afraid to cycle in the UK. Merton Council has done nothing to allow parents to walk or cycle - no protected cycle routes, slow/absent crossings, no continuous footways - Merton Council has effectively enforced driving your kids to school through dated highways design and car-prioritising roundabouts, junctions, side roads and roads. This should not be blamed on parents who when cycling have the added responsibility and fear for the lives of their children on the hostile roads which the Council has created

3.23 Alongside the traditional footpath network there is a network of public rights of way (PROW's) and other routes through local green spaces that are not used to their full potential

Please see my attached report on this.

Wimbledon Common needs filtered permeability and crossings

Also the walking & cycling route next to train line is a potentially good route but needs a crossing at Lower Downs Rd.

Unable to find a plan of Merton's proposed strategic cycle network - please provide one

3.52 LIP3 page 35

I hope this is an error "The council will work with residents to investigate and implement measures to reduce through traffic on local roads, including measures, such as filtered permeability schemes where access is restricted to cyclists" - hopefully Merton means restricted to motorists??!!

Basic things like modal filters and allowing people to cycle both ways on one way streets are long overdue in Merton, very cheap need to be installed in area wide way.

It's currently virtually impossible to walk or cycle given the current hostile environment which has been promoted by Merton Council to date.

I'm concerned that LIP3 says "encouraging students to choose more sustainable ways to travel to school and to avoid more heavily polluted routes"

Most people don't need to be encouraged to cycle, rather Merton Council needs to provide roads which enable/allow walking and cycling. No amount of leafletting, hi-vis, 'encouragement' will help if the Council is not putting in modal filters, protected cycle routes, crossings - the basics to protect people from the threat of motor vehicles.

3.56 MTS Policy 5, proposal 19:LIP3 page 35

London Borough of Merton draft transport plan: Local Implementation Plan 3 (LIP3)

"deep-rooted dependency on private cars through targeted interventions to discretely nudge people's behaviour in a positive way including promoting the negative impacts of car ownership such as air quality and greater promotion of the health, social and well-being benefits of walking and cycling" - really, "promoting the negative impacts of of car??" People well understand that cars are bad for health. Residents need to be enabled to walk and cycle and that requires the Council to act by building protected cycle routes, crossings etc.

No amount of leafleting and nudging is going to get a mother to cycle with a child if it means mixing with HGVs - Merton Council and members need to begin by changing their car-prioritising highways design approach.

If you build for cars, people drive

If you build for cycling, people cycle

Again, it is the Council which has largely created the dependency by failing to offer any alternative. You don't need discrete nudging or coaxing (p35), you need protected cycle routes, modal filters and so on

"MTS Policy 6, proposal 27: The council will continue to explore opportunities to limit engine idling through driver education and health and air quality initiatives. These might include making anti-idling traffic management orders supplemented by enforcement action days. Where sites experience particular problems or where persistent offenders are identified the council will explore the viability of introducing physical measures to restrict access during school start and finish times"

Even where there are no serious air pollution problems all schools in Merton should have permanent restricted access by vehicle to allow students to travel on foot, scooter and bicycle more safely

MTS Policy 7, proposal 32, 33 and 34: Merton is putting EV charge points on the footway to the detriment of pedestrians esp. those with mobility scooters or pushing buggies, or encumbered with young children

EVs should not be installed on the footway but on highway (build-outs if necessary)

EVs also produce Particulate Matter which is harmful to human health, cause obesity, road casualties etc so should not be seen as a panacea

MTS Policy 10, proposal 50: Significant over ranking by taxis is already a problem at busier stations, in particular at Wimbledon Station, - this area needs to be made free of all motor vehicles.

It's deeply unpleasant for shopping

Take a leaf out of Kingston Council's book.

Kingston has created a pleasant, largely pedestrianised centre and is reaping the rewards with a flourishing local economy

<p>Morden tram southern access to Dorset Road</p>	<p>Neither disagree or agree</p>
<p>Step free access Mottsphur Park and Raynes Park stations and other stations</p>	<p>Strongly agree</p>

Q27 Do you have any other comments on the draft LIP3?

The LIP3 feels very disjointed, there is no overall theme - or aim. Turning a percentage of the borough into 'liveable neighbourhood', for example.

LO15 - no plan for dealing with the situation where nearly half of Council employees have free parking permits, with no restriction on the types of vehicle (and often a mileage scheme too).

LO22 - I feel emissions based parking should be brought forward asap, along with measures to reduce the impact on lower income families (eg scrappage schemes)

LO29/30 - connectivity between east and west of the borough is poor.

LO38 - the local authority should also work with the train companies, Mayor of London and Government to deliver this.

LO41-47: sustainable servicing and delivery for retail?

London Borough of Merton draft transport plan: Local Implementation Plan 3 (LIP3)

Q22 Do you think the borough objectives LO48- LO49 meets the Mayoral outcome 9: Transport investment will unlock the delivery of new homes and jobs?

Neither agree nor disagree

Q23 Do you agree with the overall detailed three year indicative programme of investment for 2019/20 to 2021/22?

Neither agree nor disagree

Q24 Do you support the individual projects within the programme?

Agree

Q25 Would you like to see a Liveable neighborhood scheme implemented in your area?

If yes, why? :

To make walking quicker by improving the pelican crossings so that they change instantly, ie in favour of the pedestrian. To improve appalling junctions for pedestrians such as the Merantun Way/Christchurch Rd junction as just one example. To improve the pavement experience by removing obstructions such as advertising boards, electronic advertising/wifi points, wheelie bins and recycling boxes etc. Improve walking and cycling by providing routes that are not adjacent to tall buildings with microclimates eg the Brown & Root/Britania Point tower which has a strong wind effect and is lethal for cyclists, light weight pedestrians and extremely unpleasant for pedestrians

Q26 Do you support the schemes listed in the longer term plan? (see page 61)

Freight consolidation facility/Wimbledon central collection

Agree

Crossrail 2

Neither disagree or agree

South London workplace parking levy

Agree

Sutton tram link/bus rapid transport

Disagree

Willow Lane

Strongly agree

London tram dual tracking between Morden Road and Phipps Bridge

Strongly agree

Morden tram southern access to Dorset Road

Agree

Step free access Motsphur Park and Raynes Park stations and other stations

Strongly agree

Q27 Do you have any other comments on the draft LIP3?

Yes, I will send an email to Future Merton

Q19 Do you think the borough objectives LO33- LO38 meets the Mayoral outcome 6: Public transport network will be safe, affordable and accessible to all?
Disagree

London Borough of Merton draft transport plan: Local Implementation Plan 3 (LIP3)

Q20 Do you think the borough objectives LO39- LO40 meets the Mayoral outcome 7: Journeys by public transport will be pleasant, fast and reliable? **Disagree**

Q21 Do you think the borough objectives LO41- LO47 meets the Mayoral outcome 8: Active, efficient and sustainable travel will be the best option in new developments? **Disagree**

Q22 Do you think the borough objectives LO48- LO49 meets the Mayoral outcome 9: Transport investment will unlock the delivery of new homes and jobs? **Neither agree nor disagree**

Q23 Do you agree with the overall detailed three year indicative programme of investment for 2019/20 to 2021/22? **Disagree**

Q24 Do you support the individual projects within the programme? **Disagree**

Q25 Would you like to see a Liveable neighborhood scheme implemented in your area? **If yes, why? :**
A Liveable Neighbourhood might actually involve residents in deciding how the Mayor's Transport Strategy (MTS) should be applied locally. This LIP3 submission is a typo-filled, detail-light, omission-heavy document, which does little to address the real issues, especially in the east of the borough.

Q26 Do you support the schemes listed in the longer term plan? (see page 61)

Freight consolidation facility/Wimbledon central collection	Agree
Crossrail 2	Agree
South London workplace parking levy	Agree
Sutton tram link/bus rapid transport	Agree
Willow Lane	Neither disagree or agree
London tram dual tracking between Morden Road and Phipps Bridge	Agree
Morden tram southern access to Dorset Road	Agree
Step free access Motsphur Park and Raynes Park stations and other stations	Agree

Q27 Do you have any other comments on the draft LIP3?

Will submit longer comments by email. Whilst the document has a useful summary of Merton's transport needs and opportunities, the actual proposed initiatives are poor - they don't really implement the MTS, and won't achieve either 2021 or 2041 objectives. Hence, "disagree" responses to several earlier questions.
