

Wimbledon Park Lake Project - (Reservoir Safety and Desilting)

Summary of Technical Steering Group Meeting – 02 April 2019

Surveys:

- Geotechnical Survey – various items for inclusion in this scope of works have been brought forward and now need to be considered and added in where appropriate.
- Conversations are underway with Thames Water regarding assessing the condition of the downstream culverts. This will be progressed separately to this project.

Procurements:

- Noted that it is a mandatory requirement to appoint an All Reservoirs Panel Engineer (ARPE) to the project to supervise and sign off the works.
- Discussions regarding various procurement routes are still ongoing.
- LBM Officers to commence internal meetings on procurement.

Flood Study Report – Stage 2:

- Comments have been returned on the draft report for inclusion in the next draft.
- The final costings section is awaited for review and comments.

Water Quality and Pollution:

- Nothing to report.

Heritage, History and Archaeology:

- Nothing to report.

Timeline:

- Discussions on key items for a timeline were discussed so that this could now be drafted.

Risk Assessment:

- This was reviewed and updated

Date of Next Meeting:

- 30th April 2019
