Tell us what you think of the council's draft Estates Local Plan

1) Having read and considered the council's draft Estates Local Plan and supporting documents please indicate your preference at this stage for regeneration.

Please tick **one** of the following options:

Option 1: Demolish and redevelop the entire Estate

Redeveloping the whole estate would mean demolishing and replacing the existing buildings to provide well-designed energy efficient new homes and general improvement to the neighbourhood, including connections to the surrounding areas.

Option 2: Partial redevelopment

Retain some buildings and redevelop the majority of the estate to provide a number of benefits, such as well-designed energy

efficient new homes but with fewer benefits to the neighbourhood.

Option 3: Invest in existing properties to bring them to minimum modern standards

Refurbish all Circle Housing Merton Priory and leasehold properties to ensure they meet current minimum housing standards and have reasonable kitchens, bathrooms, windows, wiring and insulation. All leaseholders would have to share the costs of this work. This would not include changes to the outside areas.

Please, kindly avoid building Tower or Tall buildings. In case there is any ~~eventuality~~ there is no where to escape to. Like

The new building being put up in Colliers Wood now, it's not good enough, is too tall. Very hazard. It is so disheartening and worse than Prison building. I wonder those who will agree to live in this building, in the heart of Collier Wood. I will be very happy if it can be demolished for something comfortable, good, or reasonable. The earlier it is done, the better. I wish this advice will reach your kind consideration. Many thanks! Thank God for His directions in me.

6) Do you have any other comments about the council's consultation process that you would like considered?

Like I have already stated avoid building tower blocks or tall buildings. Look at what happened in America - New York about The Twin Towers. So many people could have escaped, but it was too lengthened. When you jump you will end up dying or being crippled. Make sure you put up reasonable buildings. With roads or streets in front. Avoid close, or crescent, and the rest.
