

Better places to live: high quality residential areas

1 Should all the homes on the Eastfields Estate be redeveloped?

As part of the transfer of homes from the London Borough of Merton to Circle Housing Merton Priory in 2010, a commitment was made to ensure all transferred homes met the Merton Standard. This included new kitchens, bathrooms, doors and windows where required.

When Circle Housing Merton Priory began to plan for the Merton Standards upgrades for Eastfields, their investigations and studies raised doubts on whether these improvements alone could bring the homes and the neighbourhood up to an acceptable, modern standard.

The Merton Standard works would not address issues such as poor insulation, dampness and condensation in the homes, overcrowding, parking, community safety and issues concerning the open and green spaces. Only homes owned by Circle Housing Merton Priory will be eligible for the improvements and leaseholders would be expected to pay for at least some of the upgrades. Any external issues on Eastfields would not be included.

Please select **one** of the following.

Option 1: Demolish and redevelop the entire Eastfields Estate

Redeveloping the whole estate would mean demolishing and replacing the existing buildings to provide a number of benefits, such as well-designed energy efficient new homes and general improvement to the neighbourhood, including connections to the surrounding areas.

Option 2: Partial redevelopment

Retain some buildings and redevelop the majority of the estate to provide a number of benefits, such as well-designed energy efficient new homes but with fewer benefits to the neighbourhood.

Option 3: Invest in existing properties to bring them to minimum modern standards

Refurbish all Circle Housing Merton Priory and leasehold properties to ensure they meet current minimum housing standards, and have reasonable kitchens, bathrooms, windows, wiring and insulation. All leaseholders would have to share the costs of this work. This would not include changes to the outside areas.

Option 4: Other, please state

Please note that the following questions relate to partial or full estate redevelopment. Should you decide to select the third option at Question 1, we would encourage you to respond to all the questions within this questionnaire as receiving all your feedback is important to us.

2 What size of homes should be provided within the Eastfields estate?

Please select **one** of the following.

Option 1: Mix of different sizes of homes

Provide a mix of different sizes of homes consisting: around 33% one bedroom, 32% two bedrooms and 35% three or more bedroom homes. This option reflects Merton's current policy to encourage a mix of dwelling sizes.

Option 2: If you do not agree with this mix, how would you change it?

3 What type of homes should be provided across the estate?

If the regeneration plans go ahead the existing homes will be replaced and additional new homes built. What type of homes do you think Eastfields will need in the future?

Please select **one** of the following.

Option 1: A mix of mainly houses and flats on different parts of the estate

Option 2: A wide range of homes including a mix of houses, flats and maisonettes

Better places to live: high quality residential areas

- Option 3: Mostly flats
- Option 4: Other, please state

5 Are there any other issues or options we should consider regarding new homes?

Please feel free to continue on the sheet provided at the end of this questionnaire.

4 How should building heights be distributed through the Eastfields estate?

Currently the heights of the buildings on Eastfields are all 3 storeys. If the regeneration goes ahead, agreeing the height of new buildings will be important. That decision will need to take into account the relationship between Eastfields and the surrounding areas, local opinions, planning policies, how many homes are to be built and how to ensure there is enough open and green space for Eastfields to be a pleasant and attractive place to live.

What do you think about building heights?

Please select **one** of the following.

- Option 1: Evenly across the estate**
Buildings should be broadly similar height across the estate.
- Option 2: Taller buildings around the edges**

Please select **one or more** of the following

- Taller buildings fronting the cemetery to the south east
- Taller buildings fronting the school to the north
- Taller buildings towards Eastfields train station

- Option 3: Variety across the estate**

Please select **one** of the following

- Some taller buildings evenly spread across the estate in general, amongst mainly lower buildings.
- Taller buildings towards the centre of the site.

People and spaces

6 What type of outdoor space would you prefer to see within the estate?

Should regeneration go ahead, all new homes will be required to have some private space: all flats with balconies and all houses will have gardens. In addition, new flats must have access to communal gardens. A regenerated estate would also need parks, playspaces and open spaces to serve its residents and the surrounding area. As there is a limited amount of space available, a balance therefore needs to be struck between the provision of private outside space for residents and public open space for everyone.

Please select **one** of the following.

Option 1: Concentrate on providing communal space for flats

This would be secure communal gardens available for groups of flats and not available for the general public.

Option 2: Provide a single public open space for everyone to enjoy

This This would be open to the general public. Communal gardens for groups of flats would remain, but may have to be significantly smaller to accommodate land for public open space.

Option 3: Other, please state

7 What types of play areas and open space would you prefer to see?

Please select **a maximum of two** from the following.

Sports pitches such as grassed areas suitable for kick-about and picnicking.

Multi-use games areas such as fenced, hard surfaced areas for 5 a-side football, netball, tennis or similar sports.

King Georges new ball court - 10/05/06

Communal gardens such as areas with planting and seating suitable for picnicking and where ball games might be prohibited.

Children's play equipment

Other, please state

Separate sheet provided for you to tell us what you think. Please clearly indicate the option which you are writing about.

CAMP is supposed to be non profit making. Their behaviour to freeholders and leaseholders is to frighten us. I like to know where they get their money from. To buy a 3 bedroom house in this vicinity is about £350,000, or more. If they gave us this amount I feel sure most freeholders would accept. If they did rebuild Eastfield I bet the new houses would cost in the region of £400,000 plus they would build extra houses and flats on the land. I feel that is how they get their profit. Resurface the roads and pathways renew the fencing, renew the panelling on flats and houses, paint the garages that's all you need to do. I have looked at houses for sale in this area for what I could afford, they are old small rooms and damp. They are not well built and spacious like the houses on Eastfields.
