

Dear Future Merton Team,

I was wondering if anyone had spared a thought for children living on the estate with chronic health problems and disabilities. I will not be happy if regeneration takes place on the estate whilst we are living here due to the detrimental effect it will have on my daughters health. I am very worried about the noise, air pollution and dust it will bring. My daughter has heart disease and suffers with chest infections and regularly uses her inhaler. This will have such a negative impact on her health. So, my main question is this; what have Merton Council put in place to support vulnerable people **prior** to regeneration taking place?

Kind regards,
