

Survey Date

The surveys were carried out on Tuesday 25th April 2006. Surveys were undertaken for 3 hours in the AM (07:00 – 10:00) and 3 hours in the PM (16:00 – 19:00).

Results

The data was analysed by time period, aggregated to represent cars, taxis and HGV's and expressed by total vehicles. Car classification includes all cars and LGV's. Taxis were excluded from the car category and classified separately. HGV classification includes all medium and heavy good vehicles. The data was analysed by the following time periods:

- AM Peak 0700 – 1000 Total 3 hours traffic flows
- PM Peak 1600 – 1900 Total 3 hours traffic flows
